**PRESS GANGS
BUSY FOR
HUERTA**Young and Old Drafted Today
in Mexico City—900 Con-
scripts Taken from Jails**ZAPATISTA ACTIVITY AT
CUERNAVACA ALARMS**Bloody Fighting at Torreon and
Tampico—Villa May Fight
in Ranks

(United Press Staff Correspondent.)
MEXICO CITY, March 13.—Pro-
visional President Huerta is drafting
soldiers by the wholesale today.
Press gangs are grabbing hundreds
on the streets, little boys and old
men included. Nine hundred pris-
oners from the city cuartels have
been conscripted, among them many
accused of grave crimes. Huerta is
much worried over the Zapatista ac-
tivity in the vicinity of Cuernavaca,
and is sending all available men
there. Reports are persistent of
bloody fighting about Torreon but
little news has been received here.
The censorship is strict.

Federal officials claim they expect
an early note from Washington.
The announcement made to this effect
was without explanation. U. S.
Charge D'Affaires O'Shaughnessy
refused to comment.

Fighting at Tampico
VERA CRUZ, March 13.—Continued
fighting is reported between the
federal outposts at Tampico and the
rebels. The hospitals are reported to
be full of the wounded.

**VILLA MAY MOVE FOR
TORREON AT ANY HOUR**
CHIHUAHUA CITY, March 13.—
General Villa again warned the news-
paper correspondents that they may
be called momentarily to start for
Torreon. He kept twenty high of-
ficers waiting in the afternoon an
hour while he cleaned his new high
power rifle, a gift from a friend. It
is equipped with a Maxim silencer,
which Villa had never before seen.
He was as pleased as a child, and an-
nounced that he will fight in the
ranks with the gun at Torreon. There
are still no indications when he will
start, but he may move at any hour.

**BENTON COMMISSION
BUSY DENYING RUMOR**

EL PASO, March 13.—General
Fraustro, chairman of the commis-
sion named by General Carranza to
investigate the killing of Benton and
Bauch, denied today the report that
the commission had found that the
men were murdered. He further de-
nied that the report had been made
blaming two officers of the federal
army. He refused to state whether
the report of the commission is ready
or when it will be presented.

40 Killed in a Clash
EL PASO, March 13.—Forty were
killed in a clash of federals and rebels
opposite San Marías, N. M., according
to a dispatch to army headquarters
here.

**STORM RAGES WITH
TERRIFIC DAMAGE
IN MEDITERRANEAN**

BORDEAUX, France, March
13.—A terrific storm is raging
on the Mediterranean and ap-
palling damage to shipping is
feared. Meagre reports say
that a dozen ships have been
driven ashore and many at sea,
it is feared, have been lost. The
storm increased toward night.
Messages from Melilla, Mor-
occo, said there had been
heavy damage there and that
many people were believed to
have been drowned.

**ROLLER SKATING TITLE
RACES ARE ON TODAY**

DETROIT, March 13.—Crack roller
skaters from all parts of the United
States were entered in the amateur
and professional championship races
scheduled for today. The big meet
will be held under the auspices of the
International Skating Union of Amer-
ica, the Amateur Athletic Union and
the National Association of the
Great Britain. The program will con-
tinue through Wednesday, March 25.

British Consul Perceval
Investigating Death of
William S. Benton

Arthur Charles Perceval, British
consul, who has charge of
that government's investigation in
Texas and Mexico into the death
of William S. Benton, who was
believed to have been shot in the
office of General Villa, has found
it impossible to go on with the
work. The commission of British
and American representatives who
had decided to go to Chihuahua
to see the body of the murdered
man, learned that little attention
would be paid to them, so they
called off the trip.

Mr. Perceval has talked with
Mrs. Benton about the case. He
has also sought Americans in El
Paso, who knew something of the
killing. In the meantime, how-
ever, it is not likely that much
further will be done by the com-
mission till more definite instruc-
tions come from the state depart-
ment in Washington.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHERFair tonight and Saturday;
moderate north winds.

**Devil Canyon Ranch at
San Bernardino Sells for \$7500**
SAN BERNARDINO, March 13.—M.
T. Amos has purchased from H. C.
Crowell a foothill ranch west of Devil
Canyon for \$7500. There are 160 acres
in the tract.

**Floods in Germany
Increase—Sections Isolated**
BERLIN, March 13.—The floods in
the southern and western parts of
Germany are increasing. Communi-
ties lying in the lowlands are com-
pletely isolated.

**Motors to Aid in
Developing the Orient**
LONDON, March 13.—A British
motor bus running from Beyrut to
Bagdad via Damascus along the old
camel trails is the latest scheme for
the development of the orient.

**Pennsylvania System to
Buy All of Its Wires**
PHILADELPHIA, March 13.—The
Pennsylvania Railroad company will
spend \$1,000,000 putting under ground
the telegraph, telephone, signal and
train dispatching wire system be-
tween this city and New York.

**Heavy Snowfall
In England and Wales**
LONDON, March 13.—A heavy
snowfall is reported from all parts of
Scotland, the north of England and
Wales.

**G. W. Vanderbilt Gold
Goes to Widow and Daughter**
NEW YORK, March 13.—The will
of George W. Vanderbilt, as filed for
probate here yesterday, leaves his en-
tire estate, estimated at \$20,000,000,
to his widow and only daughter, Cor-
nelia.

**Urbana Nominates
Negress For Alderman**
URBANA, Ill., March 13.—Rachel
Irwin, an aged colored woman, re-
ceived the Republican nomination for
Alderman in the fifth ward in yester-
day's primary election. She received
one vote. There was no other candi-
date.

**First U. S. Built
Submarine Is Planned**
WASHINGTON, March 13.—The
first submarine built in a government
navy yard for the navy will be con-
structed at Portsmouth, N. H., accord-
ing to announcement by Secretary of
the Navy Daniels today. The Lake
Torpedo Company furnished plans for
the submarine.

**CHIEF JUSTICE WHITE ON
BENCH TWENTY YEARS**

WASHINGTON, March 13.—Chief
Justice White of the supreme court
yesterday received the congratula-
tions of his colleagues on the occa-
sion of the twentieth anniversary of
his appointment to the bench. White's
appointment followed a bitter fight in
which two Cleveland appointees were
rejected by the senate.

**COPE SUICIDES UNEMPLOYED IN
AT LAGUNA BEACH DEFERENCE OF
BEACH OFFICERS**Former Resident of Santa Ana
Shot Himself Wednes-
day Night**ENDS DIFFICULTIES
BY USE OF BULLET**Body Was Found in Bed at
Beach Cottage by Jahraus
and Isch

Giving no hint of his intention, Stan-
ley H. Cope went to his cottage at
Laguna Beach Wednesday evening,
read a magazine for awhile, then went
to bed and shot himself to death. Cope
was well known in Santa Ana, where
he formerly lived.

The reason for Cope's act is not
known. That things were not going well
with him was known to his friends.
Mrs. Cope and three daughters live at
2033 Kenwood street, Los Angeles,
and a son is in college.

Cope arrived at Laguna Beach on
Wednesday, and during the day met
and talked genially with a number of
friends. He spent the evening play-
ing pool, and stood for a time with J.
N. Isch looking at the eclipse of the
moon. He then went to the Cope cot-
tage, which has not been occupied for
some time, and was later seen sitting
at a table smoking and reading a mag-
azine.

He had told Elmer Jahraus and Isch
that he was going to leave on the
stage yesterday morning. He did not
appear, and some time after noon
Jahraus and Isch concluded to go to
the cottage. They found the door open
and walked in. They found that the
man had gone to bed. A bullet hole
in the right temple and a revolver in
his right hand told the story of the
method Cope had used in taking his
life. The body was brought here and
the funeral will be held privately to-
morrow afternoon at 2 o'clock at Mills
& Winbiger's chapel.

Cope, who was about 48 years of
age, came to this county twenty-four
years ago and was one of the English
settlers of El Toro. He built the
small warehouse at El Toro, south of
the Santa Fe station. After leaving El
Toro the family lived in Santa Ana
for a number of years, and a resi-
dence at 1348 North Broadway was
built. About three years ago the fam-
ily moved to Los Angeles. For a time
Cope was salesman for a cigar house.

**JAPAN SENATE CUT
NAVAL BUDGET IN
ABOUT HALF TODAY**Japan Fears Mexican Rebels
May Slay Them—Fairbanks
Says Japan Friendly to U.S.

TOKIO, March 13.—To the tune of
vehement protests from Premier
Yamamoto, the upper house of Parlia-
ment today reduced the naval esti-
mates from \$80,000,000 to \$45,000,000.
The government originally wanted
\$95,000,000. The indications are that
the bill will now go through in its
present form although it must be sub-
mitted to a conference committee re-
presenting the upper and lower houses.
If it goes through it seems certain the
premier will resign.

**MGR. MCGRAW SWEARS TO
\$30,000 YEARLY INCOME**

MARLIN, Texas, March 13.—Man-
ager Muggsy McGraw of the New York
Nationals made out an income tax
statement today. He swore that his
annual income is \$30,000.

**ELEANOR WILSON IS
FIANCEE OF MCADOO
IS NOW BELIEVED**

WASHINGTON, March 13.—It
is predicted today that the
announcement of the engage-
ment of Eleanor Wilson to Sec-
retary of the Treasury Mc-
Adoo will come within 48
hours. It is believed in many
quarters that an engagement
exists, and that the unofficial
publicity already given will
cause the announcement of the
engagement earlier than was
intended. Secretary McAdoo
attended the cabinet meeting
called today but avoided the re-
porters. Miss Wilson received
no callers.

Declare They Will Not Budge
from Sacramento Unless They
Are Moved Forward**BOTH SACRAMENTO AND
YOLO COUNTIES ARE FIRM**Hospital Authorities Deny All
Stories of Injuries to Men
Received in Riot

SACRAMENTO, March 13.—The
army of the unemployed refused today
to heed the order of the police author-
ities to move by nightfall. They is-
sued another statement defying the
authorities, declaring they will re-
main until furnished transportation
eastward. The leaders declared that
more men are arriving hourly from
San Francisco.

The district attorneys of Sacramen-
to and Yolo counties have asserted
that they will not furnish a penny to
move the men of the army. Yolo of-
ficials declare that Sacramento coun-
ty must move them because they
turned them into Yolo county.

The county hospital authorities is-
sued a statement regarding the re-
ports that several of the unemployed
had died in the hospital as a result of
beatings by the officers in the recent
riots here. Dr. H. B. Barnard of the
hospital staff said that of the eight
men brought to the hospital the ma-
jority were suffering from hunger.

The only one in a serious condition
fell in a pot of boiling water in the
camp. One sustained a bad scalp
wound. Two were suffering from
tonsillitis and one from dysentery.
One who claimed to have been kicked
in the stomach was found suffering
from an old rupture. None were seri-
ously hurt.

**JAPANESE ARE
BEING MOVED
INTO U. S.**

BY JOHN EDWIN NEVIN

WASHINGTON, March 13.—Japan is
moving her subjects from Juarez and
Chihuahua City to Calexico. That the
move is designed not to make trouble
for America but to prevent it, was
made plain by government officials
who have been definitely informed
that was Japanese Ambassador Chin-
da's reason for requesting permission
to send the party through the United
States. Japan has recognized the
provisional President Huerta. Therefore
General Carranza and General Villa
are hostile to them, said Ambassador
Chinda. Japan feared that the Con-
stitutionalists would kill Japanese citi-
zens, forcing the Tokio government
to ask reparations, thereby embarrass-
ing both governments.

Japan Is Peaceful
LONG BEACH, March 13.—"Chris-
tianity is making for world peace and
anyone trying to involve the Christian
union in war will have a difficult task,"
said ex-Vice President Fairbanks in
addressing the Y. M. C. A. state con-
vention today. "Japan doesn't enter-
tain a thought of hostility toward
America. Japan wants to hold this
country's respect. Its people are
friendly to us. Anyone flaunting the
war flag between these nations is not
a leader in Christianity."

**SACRAMENTO SCHOOLS
WILL ADOPT "MOVIES"**

SACRAMENTO, March 13.—Plans
for putting motion pictures in every
schoolhouse of the state, submitted by
Lawrence Chenoweth, superintendent
of the School Board of Education of
Bakersfield, were approved by the
board today. Chenoweth also brought
forward provisional measures for the
incorporation of a school savings
bank system, which likewise met with
unanimous indorsement.

**THREE ADDITIONAL
BODIES MAKE LIST
OF DEAD REACH 23**

ST. LOUIS, March 13.—Three more
corpses were removed today from the
ruins of the Missouri Athletic Club,
bringing the number recovered to
twenty-three. Eight more bodies are
believed to yet be in the ruins.

Grand opening day at Gilbert's to-
morrow, Saturday, March 14. Grand
display of Suits, Coats and Millinery.
Take elevator to entire second floor
devoted to Ready-to-Wear, at Gil-
bert's.

**BRYAN CABLES PAGE
FOR COPY OF SPEECH**Believed Sting Will Be Gone by Time It
Reaches U. S.—Wilson's Stand May
Be Outlined—Page Explains

WASHINGTON, March 13.—Presi-
dent Wilson today discussed with his
cabinet the matter of the declaration
of American Ambassador Walter H.
Page, at a banquet in London that
the Monroe Doctrine's existence is
due to America's desire that Euro-
pean nations shall gain no further ter-
ritory in the Western world, and that
the fact that England will get the
greatest benefit from the Panama
canal, increased America's pleasure in
constructing it. Secretary of State
Bryan announced that he has cabled
to Ambassador Page for a copy of
the speech which he will turn over to
the senate in conformity with the re-
quest contained in Senator Chamber-
lain's resolution.

It is admitted that by the time the
speech arrives by mail it will have
lost its acuteness. It is believed that
some of the president's friends will
make a speech in the senate to ex-
plain definitely how the adminis-
tration understands the Monroe Doc-
trine, making it clear that the admin-
istration takes it to mean that Amer-
ica will not consent to the acquisition
by any foreign nation of a foothold in

the new world. In this way it is
thought the anti-administration party
will be checked from making capital
out of the Page speech.

**PAGE SAYS IS VICTIM
OF CONDENSATION**

LONDON, March 13.—"I am a vic-
tim of condensation," said Ambassa-
dor Walter H. Page in replying to a
request for a statement regarding his
banquet speech. "The remarks quot-
ed in America mean something en-
tirely different than they mean when
they are taken in conjunction with the
context of the speech. This will be
evident when the full speech which
is now being mailed is received at
Washington. I distinctly said the
United States would object to and
would prohibit the acquisition of more
territory in the new world by any Eu-
ropean nation before I added, amid
laughter, that 'You see the United
States would prefer that no European
nation gain more territory in the new
world.' Referring to the Panama
Canal I said that England would profit
more than any other nation because
the bulk of the world's shipping is
English."

**THIS CITY HAS GETTING READY
OWN LUTHER
BURBANK FOR SCHOOL
ELECTIONS**Plant Pathologist Makes Daz-
zling and Permanent Changes
in Colors of Flowers

Changing the color of freesias to
a delicate lavender shade, transform-
ing the beautiful callas, with their
pristine whiteness, into even more
beautiful tints of yellow and pink,
producing a chestnut that combines
size with sweetness, these and many
other changes are being brought
about at the plant improvement gar-
dens of Newton B. Pierce on Durant
street.

One of the most beautiful and in-
teresting improvements due to the
research and experimentation of Mr.
Pierce is the lavender-tinted freesia,
perfected about five years ago. This
new flower is of the same shape and
size as the familiar yellowish-white
freesia. Its odor is the same as that
of the common variety, from which
it differs only in color. Mr. Pierce
has named the improved flower the
"Madame Pleasants," in honor of
Mrs. J. E. Pleasants, who is a close
friend of the Pierce.

About two years ago Mr. Pierce
succeeded in producing what he
calls the New Pink and the New Yel-
low Calla. Lovely though the white
waxen petals of the primal lilies are,
it cannot be doubted that the new
flowers propagated by Mr. Pierce are
a true "improvement" on Nature.

Mr. Pierce is now at work upon a
new chestnut, a cross between the
Spanish and the Eastern varieties.
The Spanish chestnut is large and
somewhat tasteless while the East-
ern kind is small and sweet. By
combining the predominant charac-
teristics of the two types the experi-
menter has succeeded in cultivating
a nut which is of good size and of
excellent flavor.

**GEO. WESTINGHOUSE
FAMOUS INVENTOR
DIED YESTERDAY**

NEW YORK, March 13.—George
Westinghouse, whose invention of the
Westinghouse airbrake for locomotives
made him a world brother to
Fulton, Morse, Franklin, Marconi and
Edison, died yesterday afternoon in
his apartments, 35 Central Park West.
Death was due to chronic myocarditis,
or heart disease, which first became
manifest about fifteen months ago.
He was 68 years old, having been
born in the village of Central Bridge,
near Schenectady, N. Y., on October
6, 1846.

No Improvement
"These public drinking cups are
dangerous."
"I tried carrying a private cup for
a while, but it was no improvement."
"Why not?"
"I had to loan it to so many peo-
ple."—Courier-Journal.

Trustees to Be Elected in All
Districts Except Santa Ana
on April 3

On April 3 all the school districts
of Orange county except Santa Ana
will hold school elections. In many
of the districts but one trustee is to
be elected, for a term of three years.
Pollerino district, a new district, is
to elect three trustees.
In those districts where the average
daily attendance is over 400, the
polls must be open from 8 a. m. to 6
p. m. In districts where the average
daily attendance is under 400, the
polls must open not earlier than 9 a.
m., and must be kept open for four
hours.
County Superintendent of Schools
Mitchell today sent out notices of
election to the various school dis-
tricts. Santa Ana elects its board of
education at the same time as other
city officers are elected, the next elec-
tion being in April, 1915.

**MARY RICHARDSON
MAY BE LET OUT ON
"CAT AND MOUSE" ACT**

LONDON, March 13.—A speedy re-
lease under the "Cat and Mouse" act,
of Miss Mary Richardson, who multi-
plied "Venues," is predicted
today. Physicians said her physi-
cal condition is such that she could
not survive six months of hard prison
labor to which she was sentenced.
She is on a hunger strike now and
the jail attendants feared that forcible
feeding will drive her insane on ac-
count of her highly nervous condition.

**J. O. HAYES WANTS
G. O. P. NOMINATION
FOR GOVERNORSHIP**

SAN JOSE, March 13.—J. O. Hayes,
capitalist and publisher, and brother
of E. A. Hayes, representative from
the eighth congressional district, will
become a Republican candidate for
governor at the primary election. Mr.
Hayes would not make the announce-
ment in so many words, but he never-
theless left sufficient room in his for-
mal announcement for him to make
the declaration at any time.

**SIX MINORCA EGGS
WEIGH 25 OUNCES**

Mrs. J. W. Lieser, of 1419
North Broadway, has six Black
Minorca eggs which have a to-
tal weight of twenty-five ounce-
es. The eggs are the product
of two one-year-old hens. Mrs.
Lieser, as well as some of her
neighbors, would be half in-
clined to believe that the eggs
are those of geese were it not
for the fact that she has no
geese in the poultry yard
where the eggs were found.
Mrs. Lieser broke open three
of the large sized eggs and
found two to contain double
yolks while the other had a
single one.

**THEY SOUGHT
TO WRECK
STORE**Sales Girls at Siegel Store
Made Desperate by Closing
of Big Establishment**MORE THAN 1000 TO LOSE
JOBS AND THEIR SAVINGS**Henry Siegel and Partners Out
on Bail After Arrest on
Three Indictments

NEW YORK, March 13.—A riot at
the Siegel Fourteenth Street Depart-
ment Store was narrowly averted to-
day when the sales girls, realizing that
they will lose their positions by the
closing of the store under government
order, attempted to wreck the place.
Many of them will also lose all their
savings, which they deposited in the
Siegel bank. More than a thousand
girls will lose their jobs tomorrow
when the court order closing the place
becomes effective. Investigation
shows that many deposited in the
store's bank in order to safeguard
their positions in the dull season and
through loyalty to the firm.

The orders for the closing of the
two big New York department stores
operated by Henry Siegel and his
partners were issued yesterday by the
federal court.

Judge Hough directed that the re-
ceiver, appointed December 30, when
the Siegel enterprises went into bank-
ruptcy, receive bids to March 21 for
the stock and assets of these stores.
The orders were granted on applica-
tion of the receiver and creditors.

What the district attorney's office
described as "material for at least
fifty indictments" alleging fraud
against Henry Siegel and Frank E. Vo-
gel, president and vice-president, re-
spectively, of the Siegel Stores Cor-
poration, arrested Wednesday on
three indictments, and now at
liberty under \$25,000 bail each, was
placed in the hands of the grand jury.
Assistant District Attorney Arthur C.
Train said that as many indictments
as the ends of justice seemed to be
required, would be found against the
merchant bankers. The indictment
already found charges violation of the
banking laws and grand larceny in
making false statements to obtain
credit.

**MEXICAN BANDITS
KILL ENGINEER NEAR
MANILUS, ILLINOIS**

PEORIA, March 13.—Engineer Art
Fisher was shot and killed by four
Mexican bandits at Manilus near here
when he refused to carry them
through the town on a Chicago &
Northwestern freight. The men were
accused of robbery and feared arrest
if the train stopped. A posse pursued
them, engaging the quartette near
Sheffield. Two of the Mexicans were
wounded, one fatally, one escaped,
and the fourth surrounded in a corn-
field. Lynching is feared. Two of
the officers were severely wounded.

The third bandit was captured after
a hand-to-hand fight with the officers
in which two were slightly cut. The
man, who was severely beaten before
he gave up, was taken under heavy
guard to jail followed by a big crowd
which made a threatening demonstra-
tion. Bloodhounds have been put on
the trail of the fourth man. The of-
ficers wounded were Deputies Skrog-
land and Byers.

**CARDINAL GIBBONS
PLANS PILGRIMAGE TO
ROME NEXT MAY**

BALTIMORE, Md., March 13.—Car-
dinal Gibbons is preparing to make
another pilgrimage to Rome. He will
leave for his trip the early part of
May and will very likely be accom-
panied by Rev. Louis O'Donovan, one
of his secretaries. It is thought that
Cardinal Gibbons' visit will be for the
purpose of recommending American
bishops for appointment to the Sacred
College.

**MAN WHO LAST SAW
SCOTT ALIVE TALKS
TO GEOGRAPHERS**

NEW YORK, March 13.—Com-
mander E. R. G. Evans, Royal
Navy, the last man who saw Captain
Scott, the Antarctic explorer, in life,
reached New York yesterday on the
steamship Oceanic, and went at once
to Washington, where he will lecture
today before the National Geographic
Society.

Tustin Budget

Edited by Miss
Florence StoneENDEAVORERS IN
YEARLY ELECTION

Miss Lola Robinson Chosen as
New President—Forty C. E.
Young People Present

The business meeting of the Christian Endeavorers of the Presbyterian church was held last Friday night with Miss Mabel Logan. There were about forty young people present.

Miss Lola Robinson took charge of the meeting and a good many items of business were discussed. A committee was appointed to confer with the session of the church regarding a change in the time of meeting.

The following new officers were elected: Miss Lola Robinson, president; Barret Deaver, vice president; Miss Margaret Tingley, secretary; Miss Ruth Prunty, assistant secretary; Miss Emma Awe, treasurer; and Miss Lola Robinson, pianist.

After the business session the young people spent a very pleasant evening with games and music.

Refreshments were served by the hostess, Miss Mabel Logan, assisted by Miss Clara Thorman.

CHURCH NOTICES

Advent Christian Church
Sunday school, 10 a.m. next Sunday. Miss Jones will speak at the morning 11 o'clock service, and also at night at 7:30.

Loyal Workers meeting, 6:30 p.m. Rev. J. J. Shumberg of Oakland, will speak at the prayer meeting Wednesday night.

A Bible school will be held next Friday night at the Advent Christian church. These meetings for the study of the Bible will be held every Friday night and all are invited to attend.

Presbyterian Church
The regular service will be held at the Presbyterian church next Sunday. Sunday school, 9:45; morning service, 11 o'clock; evening service, 7:30.

LOTS BEING SOLD ON
THE OLD HOTEL SITE

The hotel grounds are now being divided into lots and four have been sold on D street. The purchasers are Will Graves, S. E. Tingley, Bert Smith and James Utt.

Orange Shipping
The packing houses are now running full force. The delay caused by the wet weather is now over and the pickers are busy in both lemon and orange orchards. Higher prices and a better demand are causing something of a rush. One packing house expects to send out fifteen carloads this week.

Stubborn, Annoying Coughs Cured
"My husband had a cough for fifteen years and my son for eight years. Dr. King's New Discovery completely cured them, for which I am most thankful," writes Mrs. David Moor, of Saginaw, Ala. "What Dr. King's New Discovery did for these men, it will do for you. Dr. King's New Discovery should be in every home. Stops hacking coughs, relieves the throat and all throat and lung ailments. Money back if it fails. All druggists. Price 50c and \$1.00. H. E. Bucklen & Co., Philadelphia or St. Louis. Advertisement."

EDITORIAL

WANTED—A CAR LINE

An ever-increasing subject of conversation in Tustin is that of getting a car line from Santa Ana, and it is daily becoming more and more full of suggestions and conjectures. The number of residents of Tustin who would appreciate the advantages of a car line is increasing, and in view of the fact that this is now a growing suburb of many business connections with the surrounding country, to many minds there seems to be no reason why our friends, the Pacific Electric Railway Company, should not seriously consider the construction of such a line.

It seems to be the consensus of opinion that the right-of-way could easily be obtained along the public highway. To the ordinary observer there seems to be a sufficient number of people coming and going through the day to make it profitable and it is hoped that it will soon look like a good business proposition to the railway company.

The writer, in the capacity of a news gatherer, hears this subject discussed over and over, and there is no doubt that this car line is greatly desired by a goodly majority of the citizens of Tustin, who feel that it would add greatly to its future and be profitable to the company as well.

This matter is becoming so urgent that there is a strong probability of a petition being prepared setting forth the desires of the people in this respect, and presented, when signed, to the railway company.

The promoters of this project have requested the writer to solicit expressions of opinion from the residents of Tustin and surrounding country who are interested in this subject, so that in making this request they may know the desires of the public and know also what a proposal of this kind would really amount to. When this petition is circulated each one is earnestly requested to co-operate to the extent of signing the same.

TUSTIN PERSONALS

Messrs. E. D. Craft of Los Angeles, and H. D. Risley and wife of Carville, New York, spent the day Thursday with Mr. and Mrs. I. L. Marchant.

Mrs. Will Burk of Riverside, came down Wednesday for a two days visit with Mrs. J. C. Stearns.

Mrs. Gus Ruiz has returned from a several weeks' stay in Anaheim, where she has been taking medical treatment.

Miss Louise Cotant spent the day Wednesday in Los Angeles.

Mr. and Mrs. Henry Peterson of Minneapolis passed through on their way from Portland, Ore., and surprised their friends, Mr. and Mrs. Fred Courrier, with a flying visit this week. They are on their way back to Minneapolis.

Ernest Crozier Phillips confidently expects the high school play, "Barbara Frietchie," which will be given next Saturday night at the Grand Opera House, to be one of the most brilliant dramatic productions ever given by the Santa Ana High School. Mr. Phillips has been untiring in his efforts to make the play a success and no doubt it will be.

Mr. and Mrs. Geo. Hockman of Fremont, Ore., are visiting Mr. and Mrs. C. A. Nordstrom.

Dr. C. V. Artz and wife and Mrs. Hedrow of Los Angeles, have been spending a week with Mr. and Mrs. C. O. Artz.

Mr. and Mrs. Albert Fuller entertained their friends, Mr. and Mrs. John Wilson of Los Angeles, on Wednesday.

Rev. F. L. Richardson and family of Lordsburg, were visiting friends in Tustin this week.

Mrs. Jennie Brookbank attended the Iowa picnic this week.

Mrs. E. M. Lawrence was in town visiting friends on Wednesday.

Miss Lucy Walker, who recently moved to a mountain home near Orange County Park, is in town visiting friends. Miss Walker's stay in the foothills has been very beneficial to her health. She is looking and feeling fine.

Mrs. J. A. Phinney, who has been ill at the Santa Ana hospital, is getting better and it is hoped will soon be able to return home. Mr. Phinney will take charge of the post-office April 1.

INDIGESTION ENDED,
STOMACH FEELS FINE

"Pape's Diapiesin" Fixes Sour,
Gassy, Upset Stomachs in
Five Minutes

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapiesin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Pape's Diapiesin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapiesin. There will not be any distress—eat without fear. It's because Pape's Diapiesin "really does" regulate weak out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapiesin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home. Advertisement.

NEW BUILDINGS
ARE UNDER WAY

Old Hotel Site Being Divided
Into Lots Already Being
Snapped Up

The foundation is being built for Charles Sauer's new house on D and Second street.

Guy Dolyard is finishing a new garage on the lot recently purchased on Main street.

W. L. Lehy's lot on Main street has been cleared of orange trees and a new garage is almost completed. The foundation is being dug for the residence, which is to be a handsome bungalow.

SOCIETY AND CLUBS

Reception for Miss Ella Jones

The reception for Miss Ella Jones, held at the home of Mr. and Mrs. Jasper Leck Tuesday night was attended by about 75 persons, some from Santa Ana and others from Irvine ranch, as well as Tustin people.

A short program had been arranged for the evening, which was opened with a talk by Mrs. Sarah Brown. Miss Zena Leck played a piano piece and all joined in singing "Blest Be the Tie That Binds." Mr. Leck then led in prayer and Miss Jones gave a very interesting talk on "Social Life in India." A piano piece by Miss Ada Squires was followed by a duet sung by Misses Laura Sears and Jessie Rawlings.

Miss Jones has a good many curios from India, and her explanation of the uses of these curios was a very interesting and instructive object lesson on some of the customs of India. Miss Jones was herself dressed in East Indian costume.

A large bowl of tempting fruitade was arranged on an attractively decorated table and was served with sandwiches and cake by Zena Leck and Ada Squires. Before Miss Jones went to India these two girls were tiny infant class scholars in Miss Jones' care, and now they are almost grown young ladies.

Miss Jones sails for Madras, India, again in September. She will be given a reception at the home of Mrs. A. R. Dresser in Santa Ana on Friday afternoon, and will meet her friends there.

Little Evelyn Shannon Better.
The little granddaughter of Rev. R. B. Shannon, who was so seriously injured in Bakersfield, is still improving, and hopes are brighter for her ultimate recovery.

Ladies' Aid Society.
The Ladies' Aid Society of the Presbyterian church held their annual business meeting with Mrs. P. H. Ebel last Friday afternoon.

This meeting closed a very prosperous year for the society. They have just purchased a substantial new carpet and other furnishings for the social room of the church, besides paying about \$75 for insurance on the church building.

The election of officers for the coming year was the most important business before the society at this meeting. Mrs. J. W. McCullough, who has so ably filled the office of president for several years, will be succeeded by Mrs. S. E. Tingley and Mrs. C. P. Marshall by Mrs. W. L. Lehy as vice president. Mrs. Frank Logan was elected secretary and Mrs. Byron Johnson treasurer.

During the social time that followed the business meeting, delicious refreshments of chocolate and different kinds of cake were served by the hostess, Mrs. Ebel.

The Aid Society will hold meetings every two weeks in the coming year.

Birthday Reunion.
Mrs. H. W. Smith's birthday was celebrated on Monday by a family reunion at dinner. A beautiful birthday cake was the central feature of the table. Roy Smith and Charles Smith with their families and their father and mother, Mr. and Mrs. H. W. Smith, composed the dinner party.

Tustin Twelve.
The Tustin Twelve will be entertained tonight by Mrs. J. S. House and Mrs. Albert Fuller at Mrs. Fuller's home.

This is to be an evening meeting, to which the husbands of the members are invited.

W. C. T. U.
The regular meeting of the W. C. T. U. was held Thursday afternoon at the residence of Mrs. Sarah Brown. The meeting opened with seven-teen ladies present, Miss Ella Jones a guest.

The usual songs were followed by the reading of the one-hundred-third Psalm, the roll call and minutes of last meeting. The corresponding secretary read a report of the year's work, showing a steady growth in membership and interest.

This being the annual meeting, reports were asked for from all the superintendents of the different departments of the work. Satisfactory reports were received from Evangelistic work, Y. P. B. work, mothers' meeting, physical education and scientific temperance instruction and the various other branches of the work.

Mrs. Rawlings spoke in favor of a contest to be started in the seventh and eighth school grades for the best essay on temperance. A motion was made that a cash prize of \$2 be offered for the best essay on the subject, "California Dry in 1914," and the superintendent of scientific instruction was asked to inform the pupils and teachers of the seventh and eighth grades of this offer. The

election of officers by ballot then followed, after a letter from the president, Mrs. W. L. Shatto, was read. Mrs. Shatto will retire from any arduous work from the present, as her friends wish to guard her health until she is strong again.

Mrs. Sarah Brown was elected president; Mrs. E. J. Cranston, vice president; Mrs. Shatto, vice president also; Mrs. Kate Ebel, recording secretary, and Mrs. Ella Brown, corresponding secretary.

Mrs. Ella Brown, Mrs. Ed. Smith and Mrs. Rawlings were appointed mothers of the Y for the coming year.

The business session over, Miss Ella Brown, missionary from India, was then asked to speak to the ladies. Miss Jones spoke of the intoxicating drink most used in India and how it was obtained from coconuts. A set of the curious instruments used in climbing the trees, getting the fruit and making the drink was presented by Miss Jones to the Tustin union. She also spoke of the school work in India and the work of the missionaries. Miss Jones was dressed in East Indian costume and sandals. Her talk about the different uses in India of the coconut tree and fruit was most interesting, and also about castes in India, the British rule and the languages.

K. P. Meeting
The K. P.'s held their regular meeting for the initiation of new members last Friday night. Five new members were taken in. There was a good attendance and a real good time was enjoyed in a social way.

To Laguna
Mr. and Mrs. W. L. Shatto, Mr. and Mrs. Harry Hanson, Mrs. Wilson and Mrs. Davis, with their friends, Mr. and Mrs. Chris. of Monticello,

GRAY HAIR BECOMES
DARK, THICK, GLOSSY

Try Grandmother's Old Favorite
Recipe of Sage Tea and
Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two your hair becomes beautifully dark, thick and glossy, and you look years younger. A WELL KNOWN MAN IS KILLED

Details of Death of S. C. Clucas
in Los Angeles Not
Received

(By Staff Correspondent.)
ORANGE, March 13.—The death of
S. C. Clucas, a well known rancher
of North Tustin street, came as a
shock yesterday to the many local
friends of the family.

Although no details could be learned
this morning it is known that his
death was the result of an accident
with his fumigating apparatus, which
he took to Los Angeles yesterday to
fumigate a house which he owned
there. Mrs. Clucas, with Mr. and
Mrs. H. B. Slater, went to Los An-
geles today to bring home the body,
the news having reached here last
evening when he failed to come
home.

Mr. Clucas was a successful rancher
and was prominently identified
with the local Modern Woodmen. No
arrangements have yet been made
for the funeral.

The fourth circle of the Ladies' Aid
Society of the Methodist church en-
joyed an exchange social yesterday
afternoon in the church parlors.
Each person brought a package,
and while music was being played,
they marched about exchanging their
parcels. When the music ceased,
each retained the package she held
at that moment.

A delightful program was render-

CLOGGED NOSTRILS OPEN AT ONCE! HEAD COLDS AND CATARRH VANISH

In One Minute Your Stuffy Nose and
Head Clears, Sneezing and Nose
Running Cease, Dull Headache Goes

Try "Ely's Cream Balm."
Get a small bottle anyway, just to
try it. Apply a little in the nostrils
and instantly your clogged nose and
stopped-up air passages of the head
will open; you will breathe free;
dullness and headache disappear. By
morning the catarrh, cold-in-head or
catarrhal sore throat will be gone.

End such misery now! Get the
small bottle of "Ely's Cream Balm"
at any drug store. This sweet, in-

grant balm dissolves by the heat of
the nostrils; penetrates and heals the
inflamed, swollen membrane which
lines the nose, head and throat;
clears the air passages; stops nasty
discharges and a feeling of cleansing,
soothing relief comes immediately.
Don't lay awake tonight struggling
for breath, with head stuffed; nostrils
closed, hawking and blowing. Catarrh
or a cold, with its running nose, foul
mucous dropping into the throat, and
raw dryness is distressing but truly
needless.

Put your faith—just once—in "Ely's
Cream Balm" and your cold or catarrh
will surely disappear.—Advertisement.

AT THE COURTHOUSE

SALE OF LAND TO UNIVERSITY IS CONFIRMED

Baptist Institution Purchases
Fifty Acres of Orchard
at Olive

This morning Judge West con-
firmed the sale of fifty acres of citrus
fruit at Olive to the University of
Redlands by the Will C. Crawford es-
tate. The Baptist institution offered
\$100,000 for the property, \$40,000 cash
and \$60,000 mortgage. This morning
no raise of that amount was made in
court, and the order of sale to the
University of Redlands was signed.

The Baptist university buys this
land as an investment, believing that
the ranch will bring a greater income
than would be the case if the money
were loaned out at seven per cent.

Divorce Matters
Suit for divorce has been brought
by Selvia Fortune against John H.
Fortune. E. E. Tarver is attorney for
the plaintiff.

An answer has been filed in the di-
vorce action of Hays F. Keith against
James T. Keith. Attorney French of
La Jolla appears for the defendant.

Named a Deputy
E. R. Werdin, a street paving con-
tractor, has been appointed a deputy
under Sheriff Riddick.

To Quiet Title
Suit to quiet title to lot 3, block 17,
Santa Ana, has been brought by J. R.
Congdon against J. G. Quick, adminis-
trator of the estate of Julia G. Grimes,
who died in 1893. H. C. Head is attor-
ney for the plaintiff.

Sent to Prison
Jesus Camarero, a Mexican, was to-
day sentenced to three years in San
Quentin for burglarizing a house at
Huntington Beach. He was convicted
by a jury.

For Administration
Theo. Lacy, Jr., has petitioned for
letters of administration upon the
estate of his aunt, Mrs. Laura T. Car-
ter, who died on March 10. The es-
tate is valued at \$1200, consisting
partly of furniture in the Lacy House.
The heirs are J. H. and W. L. Car-
ter, sons of Mrs. Carter. W. F.
Heathman is attorney for the peti-
tioner.

Cases Set For Trial
Cases were set for trial in Judge
Thomas' court as follows: Cooley vs.
Heitshusen, May 14; Albritton vs.
Henning, June 2; Heslop vs. Harms,
June 8.

STATE GRADES PROBABLY BE FIVE OR LESS

Highway Commissioners Well
Pleased With Conference
Held Yesterday

As a result of the conference held
in Los Angeles yesterday between the
County Highway Commission and En-
gineer Clarke of the State Highway
Commission, the county commission-
ers feel certain that the state will make
no more grades in this county greater
than five per cent.

This matter was discussed at a
meeting of the Board of Supervisors

SALTS IF KIDNEYS OR BLADDER BOTHER

Harmless to Flush Kidneys and
Neutralize Irritating
Acids

Kidney and Bladder weakness re-
sults from uric acid, says a noted au-
thority. The kidneys filter this acid
from the blood and pass it on to the
bladder, where it often remains to ir-
ritate and inflame, causing a burning,
scalding sensation, or setting up an
irritation at the neck of the bladder,
obliging you to seek relief two or
three times during the night. The
sufferer is in constant dread, the wa-
ter passes sometimes with a scalding
sensation and is very profuse; again,
there is difficulty in voiding it.

Bladder weakness, most folks call
it, because they can't control urina-
tion. While it is extremely annoying
and sometimes very painful, this is
really one of the most simple ail-
ments to overcome. Get about four
ounces of Jad Salts from your phar-
macist and take a tablespoonful in a
glass of water before breakfast, con-
tinue this for two or three days. This
will neutralize the acids in the urine
so it no longer is a source of irrita-
tion to the bladder and urinary or-
gans which then act normally again.

Jad Salts is inexpensive, harmless
and is made from the acid of grapes
and lemon juice, combined with lithia,
and is used by thousands of folks who
are subject to urinary disorders
caused by uric acid irritation. Jad
Salts is splendid for kidneys and
causes no bad effects whatever.
Here you have a pleasant, efferves-
cent lithia-water drink, which quickly
relieves bladder trouble.—Advertise-
ment.

SAMPLE OF GOV. JOHNSON'S EXTRAVAGANCE

Immediately before the present administration assumed, under the Board of Control, the management of the fiscal business of the state, the cost per patient, for the insane, was \$213.90 per annum. For the year ending June 30, 1913, the cost per patient, under the management of the present state administration and the Board of Control, was \$190.02. The reduction per patient is \$23.88. The saving per annum on hospitals alone, therefore, is 10,112 times \$23.88, a total of \$2,414,745.66.

Just before the present administration assumed control, under the Board of Control, of the fiscal policy of Normal Schools, the cost per capita per annum of the pupils in the Normal Schools was \$107.18. For the year ending June 30, 1913, under the Board of Control, and the present state administration, the cost per annum per capita was \$93.14. A saving to the state of \$13.94 on each Normal School pupil. This means, with 2559 pupils, a total saving to the state of \$49,612.46 per annum.

In these two classes of state institutions, therefore, the annual saving under business methods is \$2,910,870.02.

THE STORAGE WAREHOUSE IDEA

In the cost of living problem, the three elements are land, labor, and distribution. Land in the United States will never be cheap again. Labor will never be cheap again. But by putting American brains to work on the problem of cutting out waste motions and saving duplicate profits, it ought to be possible to counterbalance at least in part the higher cost of land and labor.

The idea of erecting storage warehouses, primarily to supply the consumers of an immediately adjacent neighborhood, is attracting wide attention. It is successfully worked out in many localities now.

The farmer cannot usually peddle food products from door to door. He cannot spend his time going around from one grocer to another.

Meanwhile the people who live in the town lying nearest to his farm are using the same products that he raises. They buy them of some retail dealer who orders them from some wholesaler. At least two profits are paid, commonly more than that. Often the produce has been hauled into some large city, and hauled out again.

The theory of the warehouse is that many classes of farm products from that immediate neighborhood could be hauled into a place where storage and refrigeration shall be provided, the same to be sold as far as possible in the country roundabout. Certainly the people of the neighborhood should get lower prices. The farmer should get more money than a commission agent would give him. On products that have to be sent away, the agent in charge ought to be able to get more than the farmer can when selling a small lot.

CLOTHES AND THE TAX

A clerk in the Chicago internal revenue office remarked, on the day that the last income tax returns were brought in, that as a general thing, the shabbier clothes people wore, the bigger a return they handed in. Perhaps he exaggerated. Yet men came in who did not look as if they could sign a check for three figures, yet they showed up property worth millions.

This converse relation of clothes and prosperity is noticed in all stages of society. Savings banks officials, particularly those dealing with recent immigrants, bear similar testimony. A Pole or Hungarian creeps humbly into the bank, as if he doubted his right to stand on its marble slabs in the presence of free born and lordly Americans. An inexperienced clerk might feel like setting a dog on him as a tramp.

Lo and behold, he pulls out a greasy but protruding wallet and begins to count out the fives and tens, all soiled and redolent of long repose in his perspiration-soaked pocket. When the "wad" is complete, it is several times as much as the fashion plate five o'clock tea clerk behind the counter could produce.

In business life good clothes are the badge of hope and ambition. A well creased pair of trousers gives a man a sense of confidence that religion can scarce bestow. Well-fitting and well-cared-for clothes suggest

both past success and habits of attention to detail that cannot fail to impress a stranger favorably.

Once the big golden goal of wealth is reached, the character often tends to soften. A man rises later in the morning and abates his habits of industry. Also the minor amenities of life may begin to look formidable. Brushing off dust and polishing boots and scrupulous cleanliness may seem like an effort. Man is at his best in many ways in his days of struggle and toil.

THE LAW'S DELAYS

Representatives of the American Bar Association, including ex-President Taft, Judge Alton B. Parker, Senator Root, and others, have been asking Congress for simplification of court procedure. Conscientious lawyers everywhere will assent.

The lawyers have their big share of responsibility for existing conditions. But often the trouble lies also in laws made by the legislatures.

C. A. Smart, a district court judge of Kansas, told in the Outlook some time ago the story of a murder case in that state. Defendant was sentenced six months after arrest. But the law gave him two years for appeal, and final action was not taken until a year after that, so the case was kept hanging three years. Judge Smart made the point that criminal lawyers, so many of whom are elected to state legislatures, are often unfriendly to greater legal expedition. They quietly secure the passage of statutes that tend toward delay.

It would seem that the courts are too liberal to lawyers in giving time to prepare cases. The bulk of legal work drifts into the offices of popular lawyers. They take on more work than they can do. When cases are called, they find themselves ill-prepared. They secure continuances for more time for preparation. This of itself results in great injustice to poor clients or others who are suffering by delay. Lawyers ought not to be allowed to keep cases hung up so long, while they complete work they should have turned over to other offices.

In the year 1911, there were 148 murders in New York City, and but 13 convictions were ever secured. In London during the same year, a bigger city, there were 20 murders and 15 convictions. The probability of escape revealed by these eloquent New York figures leads the trade of gunman to flourish, as recent tragedies have demonstrated.

IDENTIFYING CRIMINALS

The recent death of Dr. Alphonse Bertillon of Paris revives interest in former discussions as to the relative merits of his system of identifying criminals, and the finger print method.

The ordinary identification of criminals by photographs and descriptions is at best uncertain and cumbersome. In a big office 100,000 pictures may have been collected in the Rogues' Gallery, and it would take any one a week to go through them. The thousand shades of expression on the human face, particularly when a man is reluctant to enter this Hall of Fame, makes identification often dubious.

In the five cent thriller that you buy at the news stand, the detective can always recognize a given face after intervals of many years. Real detectives are not gifted with such powers of memory.

The system of measurements which Dr. Bertillon invented has been very widely used. It was claimed that no two people in the world could show measurements corresponding in all particulars.

The system encountered the objection that it took a man with much experience in such measuring to produce reliable results. Errors were occasionally made, and measurements by different men varied, even those made by the same man at different times. As a result, the Bertillon system has been to an extent discarded in favor of the finger print method.

The criminal who is held merely on a finger print laughs at the dirty little smooch produced against him. But as the enlargement is shown, and the wonderful individuality explained, he pales at the certainty of this demonstration. No two men have the same finger marks. A number of thieves have in this way been jailed as the result of marks unconsciously left on windows.

—You'll like the quality of the materials, the fit, the fine styles.
—We'll like it if you come in and look them over.

W. A. HUFF

SAYS IT'S UP TO THE TEMPERANCE PEOPLE

"The Issue" is a paper published by the "California Dry" league or organization, and in a recent number that paper presents one point of view as follows:

Is There Danger of Defeat?

Yes. By whom, the liquor men?

No. Then by whom?

If this amendment is defeated it will be done by the INDIFFERENT TEMPERANCE PEOPLE.

By the "didn't think to register."

By the "No, I didn't vote—never thought about it."

By the "Yes, I had a letter and some leaflets from Mr. Wheeler or somebody about it, but I didn't pay any attention to them; I didn't think we could win anyhow."

By the "Yes, I heard them talk about 'The Voice' and 'The Issue,' but I didn't pay any attention to it; I didn't think they would do me any good, so I didn't bother anything about it."

By the "Yes, I could have gotten several to vote for the amendment, but I didn't think it would do any good."

By the "Yes, I did think once I would subscribe for the papers and keep myself posted, but I just neglected to do so; I'm sorry now I didn't do it."

By the "Yes, of course, I'm opposed to the saloons, but I didn't think we could win, so I just didn't bother anything about it."

And so on, and so on.

Mark this: If the Dry Amendment is defeated it will be done by just this class of so-called Christian and temperance men and women.

The Devil has used this class of people for years to defeat every good and righteous measure that has been inaugurated for the uplift of humanity.

FRECKLES

February and March Worst Months for This Trouble—How to Remove Easily

There's a reason why nearly everybody freckles in February and March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of othine, double strength, from your druggist, and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they will stay all summer and spoil an otherwise beautiful complexion. Your money back if othine fails.—Advertisement.

AFTER APRIL 1 TO ARREST ANGLERS WHO HAVE NO LICENSES

County Game Warden W. K. Robinson stated today that he had received instructions from the Fish and Game Commission to be lenient with the enforcement of the new angler's license law up to April 1, but after that date to make arrests of all persons without licenses found fishing for game fish.

The commission has taken it upon itself to say that the law is not to be enforced against fishermen on wharves, but there is no such exclusion in the law. The law plainly says that those fishing for certain game fish must have a license.

However, there is no question about the intention to enforce the law so far as trout anglers are concerned.

Robinson has had a lot of cloth signs printed to be posted in all camping grounds in the Cleveland game refuge in the Santa Ana mountains, warning campers not to hunt in the refuge. While hunting in the refuge is prohibited, fishing is allowed.

Tomorrow is the day, Gilbert's wonderful display of pattern hats. Grand Spring and Summer Opening at Gilbert's. Come and bring your friends.

"Ideal" Fireless Cook Stove

Made in one, two and three compartments—ten sizes.

Remember that the

Demonstration of Fireless Cookers

is being held at the Crescent Hardware Co.

If at all interested in a cooker come in and let us prove to you that no other Fireless Cooker in the world is so substantially built, so handsome in appearance, so thoroughly efficient in operation, as the Ideal.

THE IDEAL IS NOT AN EXPERIMENT

The "Ideal" is a fireless cooker perfected to meet a definite demand foreseen years ago and not a hurriedly constructed affair, put on the market to catch the dollars of the public, after the demand has been created.

The Ideal aluminum lining is three times the thickness of that used in any other fireless cooker made.

Come in and ask us to prove the above statement.

No other fireless cooker has or ever can have the patented water seal used in the Ideal. It is folly to think that you can buy, in any other fireless cooker, a makeshift device of any sort which compares for one moment with this water seal. Let us explain the principle of this water seal to you.

The insulation used in the Ideal is of the most expensive and from long experience proven to be the most satisfactory.

We have exclusive agency in Santa Ana for the Ideal cookers. Demonstration lasts for the balance of the week. Large assortment in stock.

Society and Club News

POLY HIGH WAS HOSTESS

Hundreds of Parents and Friends Made Good Use of Visitors' Day Yesterday

Several hundred parents and friends of the high school students took advantage of "visitors' day" yesterday to inspect the buildings and grounds of the Polytechnic and to get in touch with the work of the pupils.

From early in the morning until school was dismissed the visitors were shown over the plant by guides from the student body. The shops were going in full blast, and the wood-working classes had placed excellent work on exhibition. The commercial department was in orderly operation and in the central building were the classrooms of the students who are engaged in their ordinary scholastic studies. The library and study hall were the points of interest there. In the basement the heating apparatus attracted many visitors and several made a trip out to the engine house.

The science and art rooms in the west building perhaps made the biggest showing as here much of the work done by the pupils can be put on display. The sewing and cooking departments drew interested crowds through the entire day, while the model apartment was much admired by the visitors.

In the afternoon the regular weekly assembly was held. From here the crowd passed to the music room where the postponed meeting of the Parent-Teachers' Association was called to order. Quite a contrast was shown between the open-air assembly benches and the smaller inclosed hall similar to the new auditorium which the school is in need of.

The day was a great success in that it brought scores of visitors who would never have attended the school under ordinary conditions.

For Bride-to-Be

Miss Ruth Armstrong was hostess Wednesday afternoon at her home at Old Newport, giving a miscellaneous shower in honor of Miss Grace McClain, who is to be married March 2 to Mr. Joe Morgan of Los Angeles. Eight girl friends were present and a very enjoyable afternoon was spent. Miss McClain received many beautiful and useful gifts. After game conversation and music were enjoyed a luncheon of sandwiches, olive pickles and coffee, ice cream cake was served. The table was decorated in peach blossoms, the color scheme being pink.

Those present beside the hostess and honoree were Misses Ethyl and Mae Walton, Anne, Esther and Ed Segerstrom, Berta Armstrong, Bessie and Anna McClain, sisters of the bride-elect.

Michigan Picnic Tomorrow

The Michigan State picnic is to be held at Sycamore Grove, Los Angeles tomorrow and it is expected to be the biggest Michigan picnic ever held there. Several adjoining towns are planning to send large delegations.

Mayor Rose of Los Angeles has been invited to give the address of welcome, to which President O. W. Blain will respond. The local Michigan Society of Alhambra will furnish special music.

Second Travel Section

Travel Section No. 2, of the Ebell Club will meet next Monday afternoon at the home of Mrs. George Balderston, 221 South Main street. All members are cordially invited to be present at this meeting.

Electrolysis

Ladies formerly having to go to Los Angeles to have superfluous hair, warts and moles removed by the electric needle, will be glad to know they can have this work done at the Sanitary White Shop.

Only Platinum and Gold points used. Private booths for each department.

MASONS WERE HOSTS

Officers of Royal Arch Chapter Entertained Ladies With St. Patrick's Party

The social entertainment given last night by the officers of the Royal Arch Chapter of Masons was the first of a series of like affairs that have been planned for the coming months. This course was taken because of the fact that a great many new members have joined the lodge and that in the last three or four years the Masons have given no entertainments where the new might meet socially with the old members for purposes of recreation and "getting acquainted."

Present plans call for an entertainment to be given in about a month by the Commandery. This is to be followed later by an affair given by the Blue Lodge.

During the summer no attempts will be made to entertain, but in the fall, probably in September or October, the Masons will resume their social activities.

The affair last night was delightful. A goodly number of people were present and joined in the progressive chess games played. First prize winners were Miss Martha Whitson and Prince L. Tople, the consolation trophies going to Miss Pauline Reinhaus and Mr. Faust. St. Patrick's day pennants and Irish flags were used in decorations of the parlors of the Masonic Temple. Each guest wore a cap with shamrock adornment.

Delicious refreshments were served in the banquet room with Irish tints and symbols in evidence.

Travellers to Meet

The first section of Ebell Travel Club will meet on Monday afternoon at the home of Mrs. Alice Tubbs, 1419 Bush street.

League Social

The Epworth League of the Methodist Church, South, held a social at the home of Miss Linda Paul on Wednesday evening. Twenty young people were present and the jolliest sort of an evening was spent.

Progressive games of various kinds were enjoyed and at the end of the evening delicious refreshments were served, the guests being invited to the dining room where a generously spread table was set. Miss Paul was a most efficient hostess.

To Play Parsifal Music

Mr. Revell has received from Mr. Cogswell the numbers for the program for Monday evening's concert at the Congregational church. The evening promises unusual musical pleasure and interest. Mr. Revell will play the Vorspiel from Parsifal among other numbers.

Parliamentarians Met

The Ebell Parliamentary section met yesterday afternoon at the home of Mrs. George H. Dobson with the result of a most successful meeting. Mrs. C. F. Crose was in charge of the afternoon's study, and resolutions and amendments were the subjects considered and put into practice. The drill was valuable and interesting to the goodly number of the membership present.

Barbara Fritchie

The play, Barbara Fritchie, to be given at the Grand Opera House Saturday evening, March 14th, bids fair to be a grand success. It is no doubt one of the most difficult plays ever put on by Santa Ana high school but under the able direction of E. C. Phillips and with the diligent work of the cast it is sure to furnish an evening of enjoyment to all who attend.

Everything connected with this play is furnished by the high school including the orchestra.

The high school "Boys' Glee Club," under the management of Miss Ely, will sing several old Southern songs between acts.

Most all of the seats are gone and those who wish to attend this play should get tickets today before they are all sold out. Tickets can be bought at Rowley's Drug Store.

Duplicate Whist Club

The ladies of the Duplicate Whist Club were the guests of Mrs. Sherman Stevens yesterday afternoon at her charming Tustin home. A delicious luncheon preceded the whist games played in the afternoon hours, and the tints of a pink and white color scheme prevailing throughout the house were reproduced in the

dainty viands and the decorations of the table. Camellias only were employed in developing the color motif, the lovely waxen flowers needing nothing else to enhance their charm by combination or contrast. Covers were laid for the hostess, the club members and a quarter of other guests.

In the duplicate whist games played later, a guest table included the following ladies: Mmes. Robert Simon of Santa Ana and Klein Schmidt of Indianapolis and Mmes. Robert Reid and E. R. Maury of Tustin. The club members playing were Mmes. James S. Rice, W. E. Winslow, Fred Rafferty, Ben E. Turner, Alice Harris, Arthur Lyon, Volney Tubbs, Hiram Connell, A. J. Padgham, Alice Tubbs; Miss Rosa Boyd and Miss C. E. Dresser.

Woman's Committee

Mrs. F. J. Barnes was hostess to the Woman's Committee at her home, 1212 North Broadway, yesterday afternoon. The greater part of the afternoon was devoted to arranging for the celebration of Woman's Day, which will be observed in this city by a lecture in the assembly room of the Intermediate school Thursday evening, March 19, at 8 o'clock, when Milla Tupper Maynard of Los Angeles will address this meeting, talking for her subject, "The Self-Supporting Woman."

After the business session a short discussion of the subject, "What Is the Foundation of Socialism?" followed, resulting in a decision that education is the foundation of Socialism.

Fruitade and wafers were served by the hostess and enjoyed by the ladies.

Copeland's Local Weather Report. The following record of temperatures was kept by Justin M. Copeland of 615 North Sycamore street, Santa Ana, and covers the week ending March 11, 1914:

Date	Max.	Min.
March 5	75	46
March 6	86	53
March 7	88	66
March 8	84	50
March 9	88	48
March 10	70	50
March 11	68	52

No rain during this period. Rain for season, 13.06 inches.

LODGE NOTICE

Santa Ana Lodge No. 241, F. and A. M., will confer the second degree (this Friday) evening at 7:30 o'clock. Visitors invited.

PRINCE L. TOPLE, W. M. R. W. MEAD, Secretary.

Meese Lodge Election of Officers. Special meeting of Moose Lodge tonight. Election of officers. Every one requested to be present. Banquet will follow.

Correctly fitting glasses are made by Dr. Loersch, 116 East Fourth.

KENTUCKY HOUSE PASSES BILL FOR STATE PROHIBITION

FRANKFORT, Ky., March 13.—By a vote of 60 to 32 the house of Kentucky general assembly adopted a state-wide prohibition measure yesterday. The measure now goes to the senate. As the session ends next Wednesday enemies of the bill hope to keep the senate from voting on it.

Kickapoo Worm Killer Expels Worms. AMUSEMENTS

Helen Keller

Helen Keller, who is perhaps the most talked of woman in America today, comes to Santa Ana on March 13, to give her lecture entitled "The Heart and the Hand, or the Right Use of Our Senses." After one of her lectures some one asked Miss Keller if she could tell whether her audience was large or not, and her answer showed what a remarkable use she makes of her own senses.

"Yes, it was a large audience," she said, "I can tell by the vibration of many feet in motion, and when the air is dense and warm when there are many people in the room."

"Can you tell if people are applauding you?" she was asked.

"Yes," she replied, "by the vibration of the air."

Her listeners wanted to applaud, but were interrupted by another question.

"Can you tell if your audience is interested?"

"Oh, yes, they always are."

Extra Bill, at Clune's. Your particular attention is called to Clune's Santa Ana Theater advertisement in the amusement columns of the Register this evening. The program is really the largest ever presented in Santa Ana for the price of admission charged. There are the usual three high class vaudeville numbers and in addition "Trevelyan and Payne," a Girl, a Boy and a Violin will be held over for the remainder of this week.

You will also notice that the second and third of that splendid and spectacular drama, "The Adventures of Kathlyn," will be shown tonight. This is practically what one might call a motion picture serial, the different chapters or parts being shown every other Friday night. The part to be shown this week is "The Two Ordeals."

The people of Santa Ana have taken a keen interest in this series and will no doubt be pleased to notice this evening's announcement. This is an extra fine show and should not be missed.

Manager Russell of the theater has just received notice of a booking at his theater of the new biblical film in four parts, released through the General Film Co., entitled "Judith of Bethulia." This is a wonderful creation, and is highly instructive as well as entertaining. Further announcements will be given later.

Grand opening day at Gilbert's tomorrow, Saturday, March 14. Grand display of Suits, Coats and Millinery. Take elevator to entire second floor devoted to Ready-to-Wear, at Gilbert's.

Santa Ana Painters Dentists, 102½ East Fourth St. Main 253.

IT WILL PAY YOU

To look at our new Spring Suits at a price you'll feel like paying. We offer you clothes of surpassing excellence in fineness of style, perfection of fit and character of workmanship. Prices \$15 to \$22.

You will find them at

JOE TILLOTSON'S Clothing Store New P. O. Block, 308 Sycamore St.

—Nothing is dearer to a woman's heart than a bargain in Table Linen or Counterpanes. Come and be made happy.

—And now in conclusion make up your mind to come Saturday and every day of the 13 that you can, for each day we will have an extra special that will alone pay you for the trip.

For Saturday, March 14 This Extra Special

will be one case of Turkish Bath Towels, bought from the mills at a way-down price, and one that everybody gets 35c to 40c for—abig, full size towel which go, while they last at

19c

—Buy all you want, but blame yourself if you don't get your share. They won't last long.

—APRIL DESIGNERS are here. Bring in your cards and save your "DESIGNER CLUB" Shoe Coupon.

Laces and Embroideries

—No white sale would be complete without lots of pretty lace and embroidery. We certainly have plenty of both and at prices to suit all pocketbooks. We will have a big lot of LINEN, TORCHON AND VALENCIENNES LACE at, per yard

—Be on hand ladies, and buy enough to last you a while.

3c

—And then we have the better grades in Shadows, Clunys, Valenciennes and Torchons all widths, qualities and prices—'tis impossible to describe. We have it out where you can see it and every green tag is marked in plain figures. Come and make your selections. You will be surprised at the very low prices.

—Our line of narrow Embroidery and Insertion for the baby dresses is very complete and we invite a most careful inspection.

—Then our line of wide Embroidery, Flouncings and Corset Cover Embroidery comprises all the very newest patterns and was bought for cash at way down prices. See it and you will buy it.

25c Flouncing and Corset Cover Embroidery for	15c
35c Flouncing and Corset Cover Embroidery for	25c

\$2.00 Blankets for	\$1.69	\$7.50 Blankets for	\$6.35
\$3.00 Blankets for	\$2.55	\$8.00 Blankets for	\$6.85

Handkerchiefs

—And of course a White Sale would not be a White Sale without Handkerchiefs, so listen—

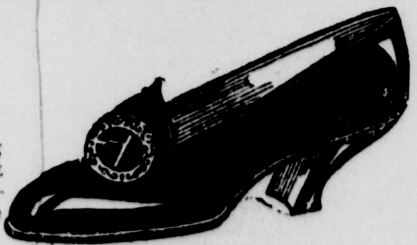

5c All-Linen Ladies'	3c	25c Handkerchiefs	19c
10c All-Linen Ladies'	7c	35c Handkerchiefs	25c
15c Handkerchiefs	12c	And a few high-grade Linen	
19c Handkerchiefs	15c	Handkerchiefs 1-3 off.	

D. M. C.

—Most of the ladies know by this time that we are headquarters for low prices on D. M. C. and we have just received a good many sizes that we have been out of since Christmas. Come quick before it is gone.

White Shoes and Hose

—Now listen! We are going to do something very unusual. We have just received our first shipment of white shoes and pumps and just because they are White Goods in our White Sale they go—and look at the prices—

LADIES		MISSSES AND CHILDREN	
\$3.50 White Buck Shoes	\$2.95	\$2.00 White Canv. Pumps	\$1.79
\$2.25 White Canvas Shoes	\$1.98	\$1.50 White Canv. Pumps	\$1.35
\$2.00 White Canv. Pumps	\$1.79	\$1.25 White Canv. Pumps	\$1.13
\$1.75 White Canv. Pumps	\$1.58	\$1.00 White Canv. Pumps	89c

—And we want to call special attention to our big stock of men's, ladies', boys', misses', children's and baby Shoes. We fit the entire family and save you 25c to \$1.00 on each pair.

—And so you will have plenty of White Hose, see what we are doing for you—

15c Ladies' Hose	12c	25c Ladies' Hose	19c
15c Children's Hose	12c	35c Ladies' Hose	29c
25c Children's Hose	19c	50c Ladies' Hose	39c

—And listen again! Of course, with white hose you will want White Gloves, so here goes—

50c White Silk Gloves only	39c
\$1.00 White Silk Gloves only	79c

Corsets

—And Corsets are white, too, so in goes the knife and you can buy—

50c Lanco Corsets	39c	\$1.00 Amer. Lady Corsets	85c
\$1.00 Lanco Corsets	75c	\$1.50 Amer. Lady Corsets	\$1.25

SANTA ANA, CALIFORNIA, FRIDAY EVENING, MARCH 13, 1914.

TRAVEL RESUMED BY WHITTIER ROUTE

Bridges at Montebello and El Monte Repaired—Road Torn Up on Fullerton Hill

Automobile travel by way of the various roads washed out by the recent heavy rains is gradually resuming normal conditions. The bridge at Montebello has been repaired and it is now possible to get to Los Angeles by the way of Whittier.

The El Monte bridge has been put in shape and motorists desiring to go to San Gabriel may go there direct through Brea canyon instead of going around by Pomona.

There is some temporary grading work being done on the Fullerton hill, and although the road is passable at that point it is advisable to continue to Los Angeles through Brea and La Habra. The work being done on the Fullerton hill will take only two or three days. It will be two or three weeks before actual highway work begins near Fullerton, as the contractor or who is to do the paving is still at work on North Main street, this city.

The Santa Ana canyon, of course, is closed to traffic, owing to highway work being done.

On other county roads conditions remain pretty much the same as they were reported a week ago in the Register. That is to say, nearly all county points can be reached without much trouble by automobile.

GARDEN GROVE WILL TALK RIVER PROBLEM

Garden Grove News: A mass meeting is called to consider the Santa Ana river situation. It will be held on Saturday evening at the school house, beginning at 7:30 o'clock.

At the meeting held in Anaheim, twelve men were appointed to ascertain the ideas and wishes of the young people over the condition as it exists. C. Holt and J. Allan Knapp were appointed to find out the feeling of people here.

Just what the views of those who have called this meeting are has not been stated.

Thrown Off: Susc

Los Angeles Times: Walter R. James, a painter of this city, boarded a Santa Fe freight car last November to go to Santa Ana and get a job. He was thrown off the car by a brakeman and injured. He filed an action against the company yesterday in the United States district court, asking for a judgment of \$25,000. In his complaint James alleges that he had plenty of money to pay his fare.

GUSTAVE BAUCH, AMERICAN, WHO DISAPPEARED WHILE IN THE HANDS OF GEN. VILLA'S TROOPS

Gustave Bauch, the American who was caught some time ago by General Villa's troops, may be dead or alive. Villa and his men have made contradictory statements. It is feared by his friends that he has been killed. One of Villa's statements was to the effect that Bauch may have been shot by some of his enemies.

HIGH SCHOOL AUDITORIUM IS BIG NEED, SAYS ASSOCIATION

Parent-Teachers' Body of High School Stands for Bonds for Class Rooms and Auditorium

Yesterday afternoon the Parent-Teachers' Association of the High School held a fine meeting at 3:30 o'clock in the beautiful music room of the Polytechnic High School. Yesterday was visitors' day and hundreds of the parents and citizens of the city visited the splendid group of buildings, many of them for the first time. All were enthusiastic over what was being accomplished.

At the close of the assembly of the High School in the out-of-doors auditorium where the vast audience had been seated for an hour in the hot sun, over one hundred of the parents repaired to the small auditorium or the music room, which seats only 120 persons. The contrast could not help but be noticed and no one was present at the High School yesterday but what was of the opinion that a high school auditorium was needed badly.

The association was called to order by the president, Mrs. Winbiger; then Mrs. W. B. Tedford gave a report of the committee on raising money to purchase a curtain for the stage of the music room. She suggested that instead of having an entertainment to raise money that each member and parent of the High School pupils contribute twenty-five cents or whatever sum they wished. A paper was quickly passed and quite a sum was raised.

A very beautiful solo was sung by the president, Mrs. Theo. Winbiger, accompanied by Mrs. Snow. Prof. McMath spoke on "Some Things We Need at the Poly High," and a discussion on the subject was led by City Superintendent Cranston. Only the largest needs were touched on and as has before been stated an auditorium is the greatest need at present. The discussion brought out the suggestion that an auditorium for city purposes as well as school purposes, where entertainments of various kinds could be given, would meet the needs of the people and the school, and that it ought to be voted for at once. Other facts brought out were that there are now in the High School 786 pupils. As was stated, the school authorities do not know where so many boys and girls came from, but they are here and must be taken care of. At the present time there are not enough class rooms, and if the school continues to grow as it has during the past year the rooms will be inadequate. The large center building has been left roughly finished on the south so that rooms can be added without any great cost. The room now used for the cafeteria is a machine room, which will be needed to be fitted up for machine work by another year. Hence a building for the cafeteria will be another need, and it has been proven that the cafeteria is a real necessity as some pupils have a long distance to come, also a large number of non-residents attend the school. It was asked if pupils who are non-residents paid school tuition. It was answered that it cost on an average \$75 per pupil for one school year, and that about \$10,000 had been received this year for tuition. It was also stated that the assessed valuation of Santa Ana was very low compared to the valuation of other cities and that was one reason it made taxes higher. For instance, it was stated the assessed valuation of Santa Ana is six million dollars, against ten million dollars for Fullerton, which has a high school with about 200 pupils.

Some one spoke of the walks as being unsatisfactory, hard on shoes and not easy to walk on. Therefore another need of Poly High School was suggested. Taking the larger needs such as the auditorium, cafeteria, machine shops, class rooms, walks, with a vast number of other needed improvements, it was the consensus of opinion that Santa Ana should at an early day vote bonds to finish up this splendid plant that has been started and which is not yet complete; that the small increase in taxes for each taxpayer should not be considered as the tax on a few thousand dollars more would scarcely be felt. It was said that persons in building a home are rarely ever able to complete it within the estimates, and so it was in the case of the Polytechnic High School building. The feeling was practically unanimous yesterday that all should get together on this important matter and boost for more bonds to complete the magnificent plant which would be a credit to a larger city than Santa Ana.

MOTORCYCLIST HURT ON ANAHEIM STREET

Anaheim Gazette: Reckless driving or an unfortunate wobble just at the wrong time, caused a serious rear-end collision between a motorcycle and a buggy at the corner of Los Angeles and Broad streets at 10 o'clock Saturday night. The motorcycle was ridden by Harry Young, son of George Young, the wine manufacturer, who lives south of Orange, and a young companion whose name was not learned.

The buggy was occupied by a Mexican and his wife, returning home from Anaheim. They were joggling along at an easy gait eating a luncheon as they proceeded. Hearing the motorcycle approaching in the rear the driver pulled to the side leaving room for it to pass, but instead of passing it crashed into the rear of the buggy at full speed. The Mexican and his wife were both thrown from the vehicle, but neither was injured save for a few bruises. Young took a header over the handle bars

and landed in the buggy. He was badly cut and bruised about the head and face, but the most serious injuries were in the abdominal region where a severe rupture was sustained. He was taken to Dr. Truxaw's office where his injuries were dressed and afterward sent to his home in an auto. His companion's injuries were slight.

REORDER WILLSON OUT AFTER ILLNESS

This morning city officials were greeting City Recorder J. A. Willson, who has been confined to his room for the last four months. The recorder is back in his office, feeling quite well. Though he has lost forty-six pounds, he tips the scales at 200 pounds. A skin and blood disorder was the cause of his illness.

Licensed to Wed
A marriage license was issued in Los Angeles yesterday to Elmer C. Poe, 28, of Bakersfield, and Ida K. Hancher, 20, of Placentia.

Take a stenotypy course at the Orange County Business College.
Consult Dr. Enoch. Sunset phone 47.

BONDS AGAIN UP FOR BIDS

If Issue is Sold, Street Lights of Attractive Style Will Be Installed

NEWPORT BEACH, March 13.—

The city of Newport Beach is again advertising for sale an issue of \$25,000 in bonds that were voted in September, 1912. The bonds were voted for the purpose of installing a municipal light plant, but the sale has been prevented in the courts by C. H. L. Griest, who has operated a local light plant here the past few years.

Griest sought to prevent the issue of the bonds on the grounds that the establishment of a municipal plant would be confiscatory and unfair to his business, and the matter is now in the Appellate court of the state. It is not thought that Griest will seek further to enjoin the bonds, however, as the City Trustees have since granted a forty-year franchise to the Pacific Light and Power Company, which company erected a distributing system here and took away the greater part of Griest's business. Negotiations are now under way looking toward the transfer of Griest's plant to the power company.

If the bonds can be sold the city will use the money for the erection of a street lighting system, but if no bid is received on them the system will be put in and assessed to the property owners under the improvement act, the proceedings of which have already been started. The specifications for the street-lighting system call for 149 concrete or bronze lamp posts and fixtures and underground conduits.

The annual meeting of the Newport Beach Chamber of Commerce was held at the Snee & Billings cafe at Balboa, at which forty-four members were present. E. W. Beckwith, manager of the Balboa pavilion, was elected president, J. B. Branagan of the new glass company, vice-president, and Max R. Wallace, secretary. The principal addresses of the evening were made by Albert Hernies, the retiring president, and L. S. Wilkinson.

Ed West, owner of the Bay View buffet of Balboa, died today at a Los Angeles hospital, of heart trouble.

At the request of the Pacific Telephone and Telegraph Company the Board of Trustees is readvertising a franchise for sale. In the first notice for bids the clause of ten free telephones for city use, in addition to the telephone company paying the city 2 per cent of its gross earnings, was objectionable to the telephone company and the advertisement was revised, cutting down the number of free telephones to three, as Manager J. A. Lynch informed the board that his company would refuse to bid on the franchise if the ten free telephones were included.

ARE ATTENDING THE CONVENTION OF STATE Y.M.C.A.

A number of Orange County Y. M. C. A. members are attending the state Y. M. C. A. convention at Long Beach. The convention will close on Sunday evening. A number of Santa Anans are to be present at sessions Sunday.

Among those attending some part of the convention from this county are: W. B. Tedford, F. H. Eley, A. J. Crookshank, V. A. Zimmerman, C. E. Lamme, C. S. Kendall, R. J. Hamilton, Francis Westgate, Will Sebastian, A. B. Waldrie, F. D. Plavan, Geo. B. Key, U. D. Palmer, A. E. Bennett, Martin Warren, L. J. Carden.

Friday night is high school night. Saturday night at 5:30 is the County Men's Supper at Hotel Alexander in Long Beach. At this Robert Widen-sall, Father of County Y. M. C. A. work, will be the guest of honor. Sunday at 2:30 will be a men's mass meeting at the Forum. Geo. Sherwood Eddy will be the speaker. He was Y. M. C. A. Secretary in India. The Municipal Band will play. P. P. Bilhorn will lead the singing.

REPUBLICAN COUNTY COMMITTEE TO MEET AND ELECT SECRETARY

The Orange County Republican County Central Committee is to meet at 2:30 o'clock tomorrow afternoon at the city hall. This will be the regular monthly meeting of the committee. The principal business will be the election of a secretary to succeed J. C. Burke, who has resigned. Burke resigned because he felt that his duties as city clerk of Santa Ana are such that he cannot spare the time to do the committee work.

ANNOUNCEMENT

—Dr. J. W. Shaul will be in his Los Angeles office forenoon; Santa Ana office, 2 to 5 p. m., and by appointment.

Little Talks On Babyology

BY ANNA STEESE RICHARDSON.

Director of the Better Babies Bureau of the Woman's Home Companion

(Copyright, 1913, by the Woman's Home Companion.)

CLEANLINESS FOR THE BABY

Cleanliness is one of the foundation stones on which is reared the beautiful structure of baby's good health and good temper. When it is neglected, all sorts of weaknesses, discomforts and irritations creep in.

Uncleanliness invites disease and furnishes a lodging place for germs. Moreover the baby that starts off life by being comfortable through cleanliness forms clean habits which it never loses. Whenever a mother tells me that she can't keep her three or four year old baby clean, that it simply "attracts" dirt wherever it goes, whatever it does, I wonder how she started it off at birth. And I have noticed at Better Babies Contests that many minor defects, small ailments can be traced by the examining physicians directly to carelessness on the part of the mother.

Preparations for keeping the baby clean start before he is born. In a drawer or basket covered from dust, should be placed a number of old, soft, clean towels, a thoroughly washed and dried piece of soft woolen blanket or outing flannel, a roll of sterilized absorbent cotton, a bottle of olive or cotton-seed or sweet-oil, a small package of boric acid, some pure white soap or the best castile, and a box of talcum powder.

A trained nurse of long experience in maternity cases tells me that the modern doctor looks first to the newborn baby's eyes. Science has proven that a large proportion of men and women who are blind owe the affliction to lack of care at birth. The eyes are easily affected at that time, and blindness is the inevitable result.

This nurse starts baby's career by washing out his eyes very gently with a piece of gauze, dipped in a weak solution of boric acid, directly she has applied the sterilized dressing to the cord. Then she rubs baby from head to foot with the oil mentioned above, rolls it up in the soft, warm blanket, lays it on its right side, and turns her attention to the mother, feeling sure that baby's eyes are safe from infection.

Later she gives the baby its first sponge bath of warm water and pure soap, taking infinite care not to disturb the dressing of the cord. After the bath she washes out baby's mouth with gauze and a weak solution of boric acid, and throws the piece of gauze away. With a second piece of gauze and more of the acid solution, she then gives baby's eyes a second washing, dresses him, feeds him and tucks him away for his first sleep in perfect cleanliness and perfect comfort. At first she uses sterilized

gauze for all wash purposes, with old, soft linen or toweling for drying. The gauze is then burned, each towel washed and dried before it is used again. Later baby, when a year old, has a soft wash rag and towels of his own, which no one else is permitted to use, and these are washed and dried as scrupulously as his clothing.

For a week, only the sponge bath is given, baby lying on a bath blanket on the nurse's lap. After that if he is well and strong, he may be bathed in a tub. In households where there is the regulation bath-room this is a simple matter. In other homes, a special tub must be provided for the baby. The enameled tub is the best, and must not be used for any purpose except the baby's baths. If the family tub is used, it must be cleaned scrupulously before baby is put into the water. The skin of the newborn baby is very tender and infection is always at hand. At the Better Babies Contests I heard more than one physician trace an eruption on a baby's skin to careless bathing or care of the tub. Doctors say that bad cases of boils can be traced to an infected tub. In fact, there are women who love their babies, yet so thoughtless as to leave diapers soaking in the bath tub, where, after a superficial rinsing off with warm water, baby is bathed. Diapers, all of baby's clothing, in fact, should be soaked and washed in separate utensils, never in the bath tub.

The bathing of the baby each morning should be a systematic process, never done hastily or carelessly. There should be a thermometer for the room and one for the bath itself. The room thermometer should register from 75 to 80 degrees F. For the first eight weeks of the baby's life, the bath thermometer should show that the water is 100 deg. F. From two months to six, the temperature should be 98 deg. F. From six months to twenty-four, it should register from 85 to 90 deg. F.

The mother who desires to insure her baby good health should not "guess" at the temperature of the water, nor neglect the bath on "busy" days. Baby needs this thorough cleansing as much at one year as at one month, and from that time on he is forming habits and feelings which demand cleanliness. There is such a thing as educating a child to endure dirt, from sheer carelessness.

A baby should not be laid into the tub and hastily sponged off. The operation starts with baby laid comfortably on a warm blanket, spread on mother's knee. First the face and head are washed with clean gauze and dried. If there is a tendency to scurf or scales on the head, rub the head every night with sweet oil, vaseline or cold cream, wash off gently in the morning and after drying, apply witch hazel or alcohol and water in equal parts. Never use a fine tooth comb to remove these scales. When there is a tendency to persistent growth of scales or milk crust, it may be necessary to stop washing the head and cleanse it only with oil or cold cream.

Next the eyes, nose, ears, and genitals are washed with a piece of absorbent cotton, wet with a solution of boric acid and water, a teaspoonful of the acid to a pint of warm water. This absorbent cotton is then burned or thrown away, never used again.

Now baby is thoroughly soaped, and laid in the tub, its head firmly supported so that the water does not run into the eyes or ears. A fresh piece of absorbent cotton is used to wipe off the soap, the baby is lifted from the water, dried quickly with an old soft towel and powdered. The drying should be done by patting, not by hard rubbing, and the creases are dried before the talcum powder is applied.

You will notice that I have not spoken of washing out the baby's mouth. Doctors seem to agree that the practice is apt to cause thrush and other affections of the mucous membrane. It is extremely easy to tear the delicate lining of the mouth, and Nature has provided a cleansing element in the saliva which gathers in the baby's mouth.

The healthy baby will soon learn to enjoy a bath properly given and show eagerness for it. The delicate baby should be bathed under direction of a physician. He may order a sponge bath only, or an oil rub. Children suffering with any form of skin disease should not be bathed unless the doctor orders it. Eczema and ring-worm are both aggravated by soap and water bathing.

But the healthy baby should have his morning bath between his 6 o'clock and 9 o'clock feeding. It sends him off drowsy to his morning nap. When the baby is a year old, the hour of bathing may be changed to 5:30 in preparation of his night's sleep. In this way the child's entire being demands a bath, the sensation of cleanliness, and when he is able to bathe himself he will do it as mechanically and regularly as he removes his clothing to retire.

Many mothers ask whether a baby should have a cold sponge after the warm bath. The word "baby" is elastic. A child under two years is not strong enough for the application of cold water. After two years, a sturdy child can be gradually accustomed to a cold shower or douche, by reducing the temperature of the rinse water a trifle each night, until it is the temperature at which it runs from the tap. But always the warm bath should be given first for cleansing the pores. The cold water serves merely to stimulate circulation and ward off colds.

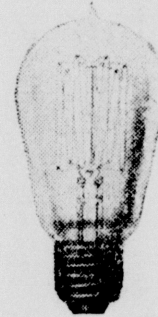

The most important habits of cleanliness are inculcated in a child by the mother's own care of the baby's diapers. If the baby is kept dry and clean from birth, he will fret when he is wet and soiled. And from fretting over discomfort from uncleanness he will grow into habits of cleanliness. He will learn regu-

Study the following illustration. The size of these lamp globes is in exact proportion to the purchasing power of light for ONE DOLLAR—1908 compared with 1914.

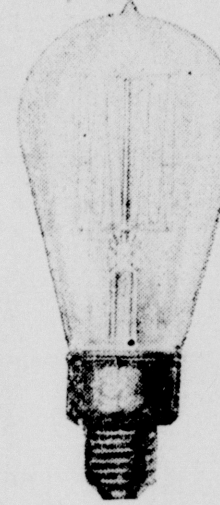

1908
One Dollar
Purchased
1904 Candle Hours
of Electric Light

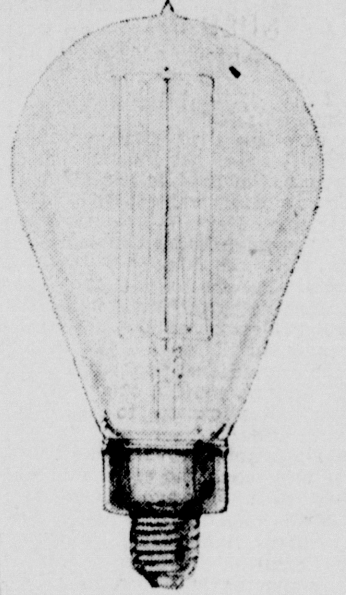

1910
One Dollar
Purchased
3075 Candle Hours
of Electric Light
62% Increase in Illumination
Over 1908

1912
One Dollar
Purchased
8000 Candle Hours
of Electric Light
320% Increase in Illumination
Over 1908

1914
One Dollar
Purchased
11428 Candle Hours
of Electric Light
500% Increase in Illumination
Over 1908

Now you are enjoying a 7 cent per kilowatt maximum lighting rate, with free lamp renewals. The rate decreases to a minimum of 2½ cents per kilowatt hour, the scale of reduction being in proportion to the amount consumed.

Nine years of voluntary rate reduction is our record. New rates (effective March 1st, 1914) show the enormous cheapening in light, while nearly all other commodities of life have continuously advanced.

Southern California Edison Co

411 North Main Street, Santa Ana Phones 46

Mrs. Bargain Hunter—"Oh, Anty! I've by Bargain Brothers' ad. The washers they're selling dollar washboards for fifty cents."

Anty Drudge—"No wonder! Since I've told the women of this town how much better they can wash clothes with Fels-Naptha in cool or lukewarm water, without boiling, they have no use for washboards. The stores can't sell 'em to women who have learned the new way of washing, and that's why they're so cheap."

Fels-Naptha
Soap takes the dirt out of clothes in cool or lukewarm water, with no boiling, scalding or hard rubbing, instead of leaving it to elbow work on the washboard. Clothes washed the Fels-Naptha way last longer and are whiter, sweeter and cleaner.

Follow the simple directions on the red and green wrapper.
FELS & CO. PHILADELPHIA

larity and self control.

The careless, untidy mother has no right to expect Nature to provide her with a fine, healthy child. He may be well proportioned and healthy when he comes into the world, but he will soon lose strength and health if he is not kept clean. Badly rinsed clothing causes eruptions, for the remains of soap, salt soda and lye irritate the baby's tender skin. Carelessly washed diapers cause chafing and nervous affections. Eczema germs will find a lodgment in inflamed creases that ought to be dimpled, pink folds of healthy skin. A dirty or scaly scalp itches, and itching keeps the baby awake, making him nervous and fretful.

I know mothers who spend hours sewing on lace and embroidering tiny frocks, yet who hurry through the process of bathing. This is a grave injustice to the child.

KILL THE CATARRH GERM—USE HYOMEL

It's the direct-to-the-spot method—you breathe it. Do not delay and continue to suffer from catarrh, head colds, bronchitis or sniffles. It is not only needless and annoys your friends, but dangerous to your general health.

Begin the Hyomel treatment at once. It is one of the easiest, quickest, and surest ways to clear the head and quickly and permanently banish catarrh.

Hyomel being medicated air immediately reaches the sore and irritated membrane and tissues—its antiseptic and germicidal healing begins at once. You will surely like Hyomel—its relief is not only immediate but lasting. Money refunded by Rowley Drug Co. if you are not satisfied.

Get the complete outfit—\$1.00 size. Druggists everywhere sell Hyomel—Advertisement.

NOTICE FOR PUBLICATION OF TIME FOR PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.
In re: Matter of the Estate of William A. McCarter, deceased.
Notice is hereby given that Friday, the 20th day of March, 1914, at 10 o'clock a. m. of said day, at the Court Room of Department 1 of this Court, in the City of Santa Ana, County of Orange, State of California, has been appointed as the

time and place for hearing the application of Nettie A. McCoy praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that letters of administration with will annexed be issued thereon to Nettie A. McCoy, at which time and place all persons interested therein may appear and contest the same.
Dated March 9, 1914.
W. B. WILLIAMS, County Clerk.
E. E. TAYLOR, Attorney for Petitioner.

PROPOSALS FOR SCHOOL BONDS

Sealed proposals for the purchase of school bonds in the sum of Twelve Thousand (\$12,000.00) Dollars of Bay City School District of Orange County, California, will be received by the Board of Supervisors of Orange County up to 2 p. m. of Tuesday, March 24, 1914.

Each of said bonds shall be dated March 1, 1914, and shall bear interest at the rate of five (5%) per cent per annum, payable semi-annually; said principal and interest to be payable at the office of the Treasurer of Orange County, California.

Said bonds are twelve (12) in number, of One Thousand (\$1,000.00) Dollars each, payable as follows, to-wit:
Bond No. 1, \$1,000.00, payable March 1, 1916;
Bond No. 2, \$1,000.00, payable March 1, 1917;
Bond No. 3, \$1,000.00, payable March 1, 1918;
Bond No. 4, \$1,000.00, payable March 1, 1919;
Bond No. 5, \$1,000.00, payable March 1, 1920;
Bond No. 6, \$1,000.00, payable March 1, 1921;
Bond No. 7, \$1,000.00, payable March 1, 1922;
Bond No. 8, \$1,000.00, payable March 1, 1923;
Bond No. 9, \$1,000.00, payable March 1, 1924;
Bond No. 10, \$1,000.00, payable March 1, 1925;
Bond No. 11, \$1,000.00, payable March 1, 1926;
Bond No. 12, \$1,000.00, payable March 1, 1927.

The bonds will be sold for cash only and at not less than par and accrued interest. The purposes for which said bonds were voted were and are for the purpose of raising money for purchasing and building, for building or purchasing one or more school buildings; for insuring school buildings, for supplying school buildings with furniture or necessary apparatus, and for improving school grounds.

A certified or cashier's check payable to the order of the Chairman of the Board of Supervisors in the sum of three per cent of the amount of said bonds or of the portion thereof bid for, must accompany each bid. Said board reserves the right to reject any and all bids.

The total valuation of taxable property within the Bay City School District in said County for the year 1913, is \$400,335.00, exclusive of operative property, and the outstanding bonded indebtedness is none.

By order of the Board of Supervisors of Orange County, California, made March 10, 1914.
(Seal)
W. B. WILLIAMS,
County Clerk and ex-officio Clerk of the Board of Supervisors.

Pacific Telephone Company
Now Has 2280 Subscribers
in Santa Ana

\$6,200 EXPENDED IN
NEW IMPROVEMENTS

Switchboard Capacity More
Than Doubled in Last
Three Years

The Pacific Telephone and Telegraph Company has now a total of 2280 subscribers in this city. To compare this number with the 177 subscribers the company had here in 1899 is but to add more proof, if indeed any were needed, of Santa Ana's rapid and substantial growth. The company is now installing two new switchboard positions at its exchange on North Main street, making fifteen positions in all. The switchboard capacity has been more than doubled in the last three years. The two new positions which are being put in, at a cost of \$6200, will have a capacity for handling the calls of 400 new subscribers. In the construction work of the new addi-

NEW BAPTIST CHURCH BUILDING NOW NEARING COMPLETION

NEW BAPTIST CHURCH BUILDING
Santa Ana, Cal. B. H. Eley, Architect

tion to the switchboard service \$6000 feet of cable are being used.

The Pacific Telephone Company handles on an average of 1300 long distance and 12,500 local calls daily. Subscribers to the Santa Ana exchange have free connection with Orange, which has 1005 subscribers. Mr. Morrow, local manager for the company, says that the growth of the system here has been far beyond all expectations. Los Angeles telephone engineers, who keep in close touch with local conditions, have difficulty in making plans for extension work here, in making sufficient allowance for Santa Ana's rapidly extending residence sections. Progress has been especially noteworthy in the south and southwest parts of the city.

In comparison with cities of like size Santa Ana has more telephones than either San Bernardino or Santa Barbara. If actual subscribers are taken into consideration Santa Ana is ahead of Long Beach in number of telephones, as the latter city counts in all the connections in the various apartment houses.

When the present improvements are completed the local exchange will employ twenty-eight girls in all.

CONTRACTOR AT WORK ON OTHER BUILDINGS BESIDES MEYERS BLOCK

Besides the three-story re-enforced concrete store and apartment building which he is building for Henry Meyers on the corner of Third and Spurgeon, N. L. Galbraith, contractor and builder, has several other buildings under construction. One of these is a five-room bungalow, with a valuation of \$1000, for Mrs. Robinson on G. street. Another bungalow of the same size is being erected for W. R. Walker on West Third street, to cost \$1800. Mr. Galbraith is building a three-room bungalow for Russell Coleman at \$15 Hickey to cost about \$400. This is to be used as a residence for the present and as a garage later on.

METHODISTS BUY LOTS FOR A BUILDING SITE

Orange Post: The Orange Methodist church board on Tuesday evening of last week approved the purchase of the property at the northeast corner of East Chapman avenue and Shaffer street, known as the Cummings place. The property is purchased to provide a site for a larger church when necessary, with no intention of building at present. The property has 170 feet frontage on Chapman avenue and 162 feet on Shaffer street. There are two residences on it, one occupied by O. Briggs and family and the other by Mrs. C. L. Sargent. The city water works were formerly located on these lots, which belonged first to E. A. Honey, then to George P. Love, and still later to Adams-Phillips Company.

GREAT DEMAND FOR BUNGALOWS HAVING SLEEPING PORCHES

Owing to the plentiful climatic conditions found in Southern California contractors find that there is an ever-increasing demand for bungalows with sleeping porches. Contractor T. W. Mitchell, of this city, says that in every house put up by him recently extra provision has been made for a room of the semi-outdoor type.

Mr. Mitchell makes a specialty of bungalows of the five-room variety. He is building three of these houses for W. W. Wilcox at the corner of Sixth and Van Ness. In the 1000 block on West Sixth street, Mr. Mitchell has just begun the erection of two other bungalows. These he is building for himself.

Among other houses that Mr. Mitchell has completed in the past two or three months are, one for Mr. E. J. Heiser, on Fairhaven avenue; two for Mr. Leggett on West Fourth and two at the corner of Fifth and Olive. Both of the two last mentioned bungalows, one of which was erected for Mr. D. M. Weston, were built and sold in the past two months.

BIRD COMPLETES VILLA PARK PACKING HOUSE

Contractor Bird reports that the painters are now at work on the new packing house that he has just completed for the Villa Park Orchard Association. The house, which is to be used for packing oranges, cost \$10,000 and is situated on the Southern Pacific tracks at Villa Park. When the painters finish their work, which is hoped will be this week, the house will be ready for business.

Take a stenotypy course at the Orange County Business College.

BUILDING PERMITS FOR MARCH MAY REACH \$40,000

Building permits aggregating \$19,350 have already been issued this month. This is a remarkable showing. Should the latter part of March keep pace with progress since the first, and there is every reason to believe that it will, the records will show the total cost of March to be very close to \$40,000.

An interesting point to note is the kind of permits that have been issued. With but two exceptions none of the buildings will run over \$2000. All the other permits are for dwellings and small improvements of property. This only goes to show the population of Santa Ana is increasing. The new bungalows and cottages would not be built if there were no demand for them.

Besides the March permits already published in last week's Register the following additional permits have been issued by Building Inspector Finley:

- To A. L. Benight, frame addition at 1941 West Sixth, \$200.
- To Clifford Johnston, with G. L. Smith contractor, five-room dwelling at 910 South Sycamore, \$2000.
- To F. L. Andrews, six-room dwelling and garage at 1605 West Third, \$1500.
- To J. P. Hutchins, with L. E. Anderson contractor, five-room dwelling at 1603 West Second, \$1000.
- To W. T. Mitchell, five-room dwelling at 1018 West Sixth, \$1100.
- To John Ryan, with O. W. Noble contractor, improvements at 1504 Durant, \$150.
- To F. E. Taylor, with Hunton and Selva contractor, two-room dwelling at 920 West Pine, \$350.
- To Oliver Duval, with Butler & Preble contractors, five-room dwelling in Buckingham addition, \$1300.
- To C. E. Niegler, with C. L. Clary contractor, five-room dwelling in 900 block on West Pine, \$825.
- To Dr. J. R. Wilcox, with G. L. Smith contractor, five-room dwelling at 441 South Broadway, \$2500.

ORANGE MAN TRADES REALTY FOR BUSINESS IN SANTA ANA

Orange Post: C. A. Flene of the Orange Union Mercantile Company, has traded his home on South Orange street for a dry-cleaning business in Santa Ana, which he proposes to carry on himself, enlarging and improving the business with a view to selling it later. Mr. Flene is building another home in the Nutwood tract and has no idea of leaving Orange.

DID CHILD WAKE UP CROSS OR FEVERISH?

Look, Mother! If Tongue is Coated Give "California Syrup of Figs"

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the food waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company." Counter-

BAPTIST CHURCH HAS CLASSIC LINES

Handsome New Religious Edifice to Be Completed by April 1

DETAILS SPLENDIDLY
PLANNED THROUGHOUT

Auditorium and Sunday School
Rooms in Combination to
Seat 830

There is every indication that Santa Ana's latest and most attractive religious edifice, the First Baptist church, at the corner of Main and Church streets, will be completed within the time limit of Contractor A. E. Bird's contract. The building progress on this beautiful \$40,000 structure has been going ahead smoothly, without accident or friction and to the complete satisfaction of all interested. April 1 will see the church ready for service.

To Architect Frederick H. Eley belongs the credit for the splendid design which is of the Roman Ionic order with a modified Greek cap. The well-lighted interior conforms to the classic feeling of the exterior and conveys a sense of grace and charm.

A combination art glass skylight and ventilator dome surmounts the main auditorium, which is fifty-two feet square. The Sunday school room, immediately adjoining the main auditorium, is forty-two feet square. These two rooms can be made into one by the rolling back of a set of handsome sliding doors, twenty-two by thirty feet in size. The doors have a total weight of 1400 pounds and are hung on Coburn roller hangers. These solid steel hangers are the finest made and can be obtained only in New York City. With their aid the massive doors may be manipulated with the greatest ease.

The main auditorium has a seating capacity, including the balcony, of 496, while the Sunday school room, with its balcony, seats 318. South of the main floor and to the right of the church street entrance there is a ladies' parlor, with dimensions of 17 by 34 feet. The pulpit and baptistry are in the northeast corner as are also the organ and adjoining rooms. In connection with the pulpit there are the pastor's study and the secretary's rooms. The choir room, the ladies' robing room and the men's robing room are all found on this floor.

Other than the auditorium and the Sunday school room the largest room is the banquet hall, 52 by 68 feet in size. This is in the basement, as are also the kitchen and Baracca classroom. The remainder of the basement is given over to class rooms, of which there are 21 in all, including those in other parts of the building. The Baracca room has a size of 19 by 35 feet. All available space on the second floor is taken up by class rooms.

The art glass work of this church is amongst the most beautiful to be found in the city. Extremely artistic effects have been attained in the execution of the work on the various memorial windows.

COX HAS BOUGHT RANCH NEAR ORANGE FOR ABOUT \$45,000

A. N. Cox of Santa Ana has bought a twenty-two acre ranch two miles north of Orange for \$45,000. The sale was made by G. W. Birch. On the ranch are twelve acres of Valencia and ten acres of lemons.

2 CARS GIRDER STEEL FOR SPURGEON BLOCK ON ESPEE TRACKS

A consignment of two carloads of girder steel to be used in the new four-story Spurgeon Realty block at the corner of Fourth and Sycamore arrived today on the Southern Pacific. The shipment is from the Baker Iron Works of Los Angeles, which firm has the contract for the structural steel work.

Work on the concrete foundations of the new building is going ahead rapidly and the work of putting up the steel frames will commence Monday week, according to T. F. Harmon, superintendent of construction.

WORK ON COUNTY FARM COTTAGES, CLUB HOUSE, LAUNDRY, ENDED TODAY

Contractor A. H. Anderson reports that all finishing work on the three cottages, laundry and combination club house and chapel of the county farm will be completed today. The buildings have been painted and are

A Potpourri of News and Views

From the Los Angeles Financial News

General Bond News

Trustees of the city of Inglewood have called an election on March 19 for the purpose of voting on a bond issue of \$32,000 for city hall, park and fire improvements.

A committee of the Board of Education of Santa Ana is interviewing citizens as to the advisability of calling an election to vote on a \$75,000 bond proposition for school purposes. Unless sentiment is largely in favor of the proposition no election will be called.

The Western States Gas and Electric Company has filed an application with the Railroad Commission for permission to issue \$219,000 first mortgage refunding 5 per cent gold bonds to cover refunding, expenditures made, and the cost of more physical equipment. The company wishes to sell these bonds at 8 1/2 per cent. The company operates in Humboldt, San Joaquin, Sacramento, Calaveras, Amador, El Dorado and Contra Costa counties.

Application for the authority to issue \$115,000 in bonds to build a pipe line from the natural gas fields in the Olinda district, Orange County, to Placentia, Fullerton, Anaheim, Olive, Orange, McPherson, El Modena, Santa Ana, Garden Grove and Tustin, has been filed with the Railroad Commission by the Southern Counties Gas Company. The company at present is distributing artificial gas to these towns. Notice was also given that the rate in Orange would be cut.

B. R. Ellis, representative of the First National Bank of Chicago, after a conference with the Long Beach City Council and later with the finance committee of the Council, decided to purchase the entire amount of municipal bonds recently issued by the city at par and accrued interest. These include: Sewer bonds, \$340,000; incinerator, \$35,000; waterworks, \$200,000; Belmont Heights pier, \$50,000; and harbor improvements bonds, \$650,000.

The unsold blocks of Los Angeles harbor bonds of the \$2,500,000 issue are to be offered to the public at once and will be knocked down to the highest bidder. To date \$260,000 of the bonds have been disposed of.

The \$1,125,000 5 per cent bond issue of Riverside County for the improvement of the highways in that county were sold on Wednesday to a syndicate represented by E. S. Moulton, president of the First National Bank of the city, and included N. W. Halsey & Co. of San Francisco, the Continental Trust Company of Chicago, and E. H. Rollins & Son of San Francisco. The bids were par and accrued interest, making the premium \$37,237.50. In connection with the sale of the bond issue, the San Francisco Chronicle calls attention to the fact that trading in bond issues meets with many unnecessary difficulties, and in speaking of the Riverside sale says:

"Riverside County has offered for sale on next Tuesday \$1,100,000 5 per cent bonds dated May 1, 1914. The officials have called for firm bids and require the deposit of a certified check for \$20,000. County bonds must be signed by three or four officials, and if one of them should die between next Tuesday and May 1st the issue would be invalidated. Meantime the bonds could be validated only after the appointment of a successor. Furthermore, interest is running on \$20,000 for two and a half months, while the bonds themselves, if taken up before the date of issuance, would have to be discounted. It is probable that Riverside County will receive bids for this issue, but it is quite certain that the bidders will take into consideration the wholly unnecessary hazard that has been introduced by the county officials.

"The county of Los Angeles, in spite of persistent overtures from bond dealers, continues to pay interest annually on its issues. The savings banks of this State are not permitted under the law to include accrued interest in their semi-annual statements, and many of them for this reason decline to buy bonds unless interest matures semi-annually or at shorter periods. Thus Los Angeles County has closed one of the largest possible markets for its securities.

"California State officials decline or neglect to obtain legal opinions on bond issues, passing this responsibility to the buyers. This makes little difference one way or the other when the issues are sold in block, but it makes a great deal of difference when they are sold in small lots. While legal experts base their charges on the size of the issue, in some measure, still an opinion may be obtained on an entire issue for less than the cost of several opinions on several blocks of that issue.

"The highway bonds are a case in point. An opinion could have been obtained on the entire issue for \$10,000. Under the method of selling the bonds to counties, which resell them to dealers, it has been necessary to obtain an opinion on each block, at the rate of one-tenth of a point on each bond, or \$18,000 for the issue. The dealers, of course, deduct this expense from the amount they would otherwise pay for a block.

"There is considerable expense attached to bidding on a public bond issue. Each bidder proceeds on the theory that he will obtain the bonds. He must arrange, among other things, for getting them carried. If delays are occasioned in a declining market, the successful bidder may sustain heavy losses. If there is a flaw in the proceedings, the expense has been borne for nothing, and an unfavorable opinion costs just as much as a favorable opinion. All these untoward possibilities are provided for in the bids, and they are provided for in each bid. If the dealers were assured that they were bidding on a flawless issue, it is quite certain that the public would receive in addition for the bonds more than the cost of an original opinion.

"Challen R. Parker, a member of the board of governors of the Investment Bankers' Association of America, has suggested that the local bond dealers associate for the purpose of prevailing upon California State and municipal officials to handle public issues in a manner such that the dealers would be put to the least possible expense, whereupon the sellers would receive the greatest possible return."

In pursuance of the plan of refinancing the San Francisco-Oakland Terminal Railway system, the company has applied to the Railroad Commission for permission to issue \$1,000,000 in bonds and \$500,000 in collateral trust notes. The denomination of the bonds was not given and has not been determined.

For the purpose of issuing and selling a \$5,500 bond issue, voters in the Grant school district, Redondo, will hold an election March 2.

The \$1,750,000 good road bond issue of San Bernardino County failed of the necessary two-thirds majority at the election Tuesday and was defeated. The vote was 7,015 to 3,909. The majority is about 267 short.

The Associated Chambers of Commerce of Orange County, in session at Anaheim, endorsed the proposal that the supervisors appropriate \$200,000 of county money for the purchase of State Highway bonds.

The \$50,000 issue of the water extension bonds of El Centro have been sold to Wilson, Cramer & Co., a Denver bond house, which recently purchased the issue of \$30,000 for the grammar school district. The

bonds were sold at par with accrued interest since last July, when they were officially ordered sold.

The San Joaquin Light and Power Company has applied to the Railroad Commission for authority to issue \$3,145,000 of bonds for the purpose of refunding underlying bonds. The company also asks for authority to refund \$200,000 in short-term notes.

A. H. Rollins & Son of Denver have purchased \$275,000 of Phoenix (Arizona) municipal bonds, paying a premium of \$5,893. The money received is to be used in betterment of the fire department, for purchase of parks, establishment of standard lamps on all paved streets, and the retirement of city warrants now unpaid.

Club Plan for Saving

Do you know that if you can lay aside \$1.00 per week that you can soon become a bondholder? Four young men in a New Jersey town last fall devised a plan for buying bonds, which has developed into a national movement. They organized a little savings club of their own, pledging each member to put \$1.00 a week into the treasury until \$50 should be collected, when they would buy a \$50 bond, and when four bonds should have been purchased each man was to take one. Regarding small savings, the United States fall behind most all nations as savers although it surpasses all others in natural wealth. Commenting on this fact, Moody's Magazine says:

"According to the following table, prepared by Dr. Henry S. Williams, a well known authority, the United States stands at the bottom of a list of fifteen countries as a nation of savers. This table shows the number of savings bank depositors per thousand of population:

Switzerland	554	Germany	317
Denmark	442	England	302
Norway	415	Australia	290
Sweden	404	Tasmania	280
Belgium	397	Japan	270
New Zealand	389	Italy	259
France	346	United States	99
Holland	325		

"A table of holders of investment securities would probably tell even more unfavorably against the United States. This country surpasses all others in natural wealth. Our workmen receive much higher wages than those of Europe, and yet even the poor Italians save out of their meager earnings more than Americans from their abundance. Americans have learned to earn, but not to save.

"The average French investor has less than \$200 in securities at all told, showing a most remarkable distribution of investments in that thrifty country, where even the Government encourages saving by making its securities available to the poorest peasant. French 'rentes,' as Government bonds are called, are issued in denominations as low as two francs, 40 cents. The billion-dollar indemnity, by which Bismarck thought to crush France after the Franco-German war, was liquidated in two years by the flotation of a loan in small denominations among the people of France. Germany, too, puts its bonds within the reach of the ordinary man by issuing them in pieces as small as 200 marks, \$50. Securities of great corporations are likewise distributed among the small savers in Europe by the great banks, in sizes suitable to the poorest purse. In the United States, until recently, only the 'get-rich-quick' concern catered to the small investor. The big corporations could get all the money they wanted from institutions and from wealthy individuals. Now, however, even the greatest companies have been compelled by the lack of liquid capital in the world's financial centers to look to the people for the money they need. That is one good result from the recent 'hard times.' No longer is the man with \$100 shown the door by the big banker. Everybody is glad to see him.

"The American Telephone Company, one of the greatest corporations in the world, last year made a bond issue which included bonds of \$100 denomination and no less than seventeen railroad corporations, twenty-six gas, water, electric light and power and street railway companies and fourteen great manufacturing or 'industrial' concerns have outstanding \$100 bonds. The United States Government, too, has issued some of the Panama Canal bonds in \$100 size, bonds of the City of New York as small as \$10 can be purchased, and only the other day the State of New York sold \$1,000,000 bonds, a portion of which issue is in \$100 pieces.

"The best writers on investment principles have been emphasizing the wisdom of 'diversification' of investments—that is, the placing of one's capital in each of a number of fields, so that an accident to any one industry or any section of the country will not sweep away the investor's whole fortune, but will impair only a small part of it. This 'diversification' formerly only to the man of large means is now equally feasible for the little investor. The man with \$500 to invest can put \$100 in a railroad bond, \$100 in a public utility, \$100 in a manufacturing industry, and \$100 in a Government, State or city bond and only a national cataclysm can wipe him out. If he has another \$100 and wants to put it into a real estate mortgage, he can find responsible companies which take mortgages on big city buildings and divide them up into \$100 pieces. It is now possible for even the man who thinks he will never have \$100 at one time to become a bondholder without resorting to the 'part payment' plan which some brokers have been advertising."

Bond Market Healthy

"It is true that prices of investment securities have eased off a little, but when the sale of \$10,000,000 Interborough Rapid Transit bonds, the offering of \$19,000,000 Great Northern stock and the underwriting of \$30,000,000 Western Union stock are announced on the same day, it is evident that investment conditions are in a healthy state." Thus spoke a representative of one of the large banking houses to the Wall Street Journal. "There has been less activity in the bond market for a week past," he continued, "as compared with business done the last of January and the first part of this month, because there is a smaller supply of bonds in the market than there was at that time. The new issues have been well cleaned up, and as a rule their prices have advanced substantially. Investors, however, are not bidding any higher for them because they know other issues are coming out, which they expect to be able to buy at prices as attractive as the present level for other issues."

January Building

Fifty-six cities in the United States reported the launching of new construction projects during January that involve the expenditure of more than \$37,000,000. The total for the fifty-six cities was only 8 per cent less than the new construction begun January, 1913, in the same cities.

Freight Rate Increase Decision

It will be three months before a decision is reached by the Interstate Commerce Commission on the proposed freight rate increases, according to Commissioner Harlan.

Dr. Goodnow, the New Head of Johns Hopkins

Dr. Frank J. Goodnow of Columbia University and now political adviser to the Republic of China, has been chosen president of Johns Hopkins University at Baltimore.

Dr. Goodnow is Eaton professor of administration law and municipal law at Columbia University and is in a three years' leave in China. The Chinese government and the Carnegie International Peace Endowment, which selected him for the position in China, have reluctantly released him from his service there.

A cable message was received from Professor Goodnow accepting the offer of Johns Hopkins and announcing that he will take up his duties at the opening of the academic session in October.

The presidency of Johns Hopkins has been vacant since the resignation of Ira C. Remsen, about two years ago. During this time Professor William Welch has been chairman of the committee which has been directing the trustees have had under consideration Professor Fine of Princeton, who was recommended by President Wilson, ex-President Taft, Dr. Buckler, the archaeologist, and others.

Dr. Goodnow was born in Brooklyn in 1859, and was graduated from Amherst in 1879 with the degree of bachelor of arts. From Columbia he received the degree of bachelor of laws in 1882. Later he received the degree of doctor of laws from Amherst, Columbia and Harvard. He studied several years in Paris and Berlin, and has been Eaton professor of administrative law at Columbia University since 1903.

Dr. Goodnow is the author of "Comparative Administrative Law" and several other works on municipal government.

LOS ANGELES PRODUCE MARKET

Another shipment of eastern cucumbers, some endive all the way from France, a large shipment of pineapples and a few alligator pears from Hawaii were the features of the market yesterday morning. The endive from France is a salad vegetable and brings with it more name than real quality. Alligator pears were sold at \$6 per dozen and were taken by clubs and one or two of the principal retail stores. Pineapples have not been as plentiful as anticipated this year, which accounts for a price up to 8 cents at the present time. The crop has not been as heavy, according to report, as last year, and in addition there has been a greater demand for canning and juice pineapples. This has resulted in the shipment of only the best fruit grown, another reason for a higher quotation. The citrus market was steady and apples were also firm. Receipts of apples for the day were only 188 boxes. Storage stock is being rapidly absorbed by the trade.

The egg market was steady on a market of similar character in the north and not sufficient local stock on hand to jar the quotation lower. Receipts were only 754 cases.

Butter ranked right along with eggs as far as change of prices figured. There was only a fair call for the product. Receipts were heavy, 62,670 pounds.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhoea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

MISCELLANEOUS ADS

NOTICE TO REAL ESTATE AGENTS—My property at 915 West Chestnut has been taken off the market. George Snider.

NOTICE TO VOTERS—The Great Register of Orange County for the year 1914, as well as every other county in the State of California, is now being compiled. All voters who expect to participate in the general election to be held in November, 1914, and in the primary election to be held in August, 1914, must register. Register for the primary election on July 5, 1914 and for the general state election on October 3, 1914. W. B. WILLIAMS, County Clerk.

"Faultless" Houdans

This strain has been egg-bred from trapnest records since April, 1890. I have bred them 21 years for great lay and 12 years for large size chalk white eggs; these fowls are extremely hardy, have neither comb nor wattle to freeze, and are the best of all winter layers in open front coops. Faultless strain Houdans have won every blue ribbon at New York, Boston, Chicago and Philadelphia shows for past six years; eggs and stock sold on honor; send 10c for the largest illustrated poultry catalogue ever issued; it tells you how to breed these fowls, which average 250 eggs a year apiece; it tells you how to feed \$3000 a year from 100 hens. E. F. MacAVOY, secretary Houdan Club, Cambridge, N. Y.

A REVIEW OF DEVELOPMENT

Prosperity Reigns All Over California—Report on Crop Conditions

The monthly bulletin of the California Development Board follows:

This bulletin is based upon special reports by reliable authorities in various counties covering nearly every section of the state.

Weather review and outlook by G. H. Wilson, official in charge, U. S. Weather Bureau:

"The first half of February, 1914, was fair and pleasant in California, except light showers along the extreme northern coast from the 9th to 12th. This period of dry and pleasant weather, following the heavy precipitation in January, was very beneficial, permitting the rivers to fall from a flood stage to near normal conditions, and the ground to dry so that farming operations could be pursued. Grass had made rapid growth and green feed was plentiful. There were a few light frosts, but no damage resulted. There was a wet period extending from the 16th to the 23rd, when rain fell generally over the entire state, being very heavy in some sections from the 18th to the 21st. Considerable damage resulted from the heavy rains during this period in Southern California. Thunderstorms occurred on the 18th and 20th in the central portion of the state. On the 20th high south to southeast winds were reported along the central coast. Point Reyes reporting a velocity of 80 miles per hour and Mt. Tamalpais 60. The rains were very beneficial and the present outlook for good crops is most encouraging.

The survey of San Joaquin county, made by the California Development Board for information purposes, was completed in February. A large relief map of the Panama Canal has been temporarily installed in the nave of the Ferry building by the board.

In the first month of the year before the opening of the great world-wide exposition, California and its metropolis find themselves facing conditions that are most promising—abundant and seasonable rainfall to insure bountiful crops and the profitable prosecution of other industries, and the exposition company with its program of preparation right on schedule time for the opening.

Building and general construction

Quality and Service

are the foundation stones upon which our business is built.

We know you want the best quality of things to eat, and that is exactly what you get at this store.

Care in filling orders and prompt delivery of goods are other essentials that we pay special attention to.

Morrill Bros.

Quality Grocers.

Fine China.
Opera House Block.
Phones 51.

Are you going to move

If so, let us figure with you on doing your job. We move Household Furniture Anywhere, Any Time, Any Distance.

Heavy Loads and Long Hauls our Specialty—Motor Trucks or Wagons.

Santa Ana Commercial Co.

Transfer Dept. 1105 East Fourth St.
Phones: Sunset 66; Home 366.

HOTELS FOR HEALTH OR PLEASURE RESORTS

LOST—RHEUMATISM AND STOMACH TROUBLES. FOUND—HEALTH AND HAPPINESS AT MURRIETA HOT SPRINGS, MURRIETA, CAL. America's finest Sulphur and Mud Baths and Swimming Pool. Booklet at Information Bureau, or by writing, Fritz Guenther, Prop. H. Guenther, Manager.

COUNT DE LESSEPS TRAVE S 100 MILES AN HOUR IN SLEIGH PROPELLED BY AIR

Count De Lesseps' motor sleigh has been one of the sensations of the winter in Europe. He has traveled as high as 100 miles an hour and can make sixty miles an hour without much danger. The power is given from the immense propeller

behind, which is operated by a motor, such as used on aeroplanes.

The shoe-shaped chassis is attached to broad, flat runners, and vibration is reduced to a minimum by the use of strong springs at the side. The propeller is guarded by

a metal screen for protection against anyone approaching too near.

The count's highest speed has been attained when he used wheels instead of skids. When there is no snow he places wheels on the projecting pins, and in this way has been able to make 100 miles an hour.

After Dinner Chats With Apricot Growers

By J. G. Berneicke, M. D.

Last year the growers of Orange county received nine and a half to 12 cents per pound for their dried apricots. Not many sold at nine and a half cents, and only two received 12 cents. Many sold at 10 cents, and up to 11½ cents. The average, however, was perhaps about 10½ cents. The members of the association had 11 cents or a little better in the first pool, and the second pool is likely to improve on this. The members of the association not only received a better price than the average outsider, but they also helped the outsider to get a better price for himself.

How? Suppose the association had offered its apricots at 10 cents. Nearly all outsiders would have fallen over each other to sell at 10 cents, a little less to be sure to dispose of their crop first.

As it was, there were some outsiders who were determined to hold for a good price, and these, by so doing, helped themselves and helped the association.

Members of the association received \$42 per ton for their pits, and sacks furnished. This was the highest price ever paid, and the highest price paid anywhere in the state. Outsiders received \$40 as the highest price, down to \$25 or possibly less. The very high price paid for pits in 1913 was due partly to the short apricot crop, and partly to the shortage of the bitter almond crop. The apricot kernel is for many purposes a perfect substitute for the bitter almond. The fact that last year the apricot kernel did so largely fill the place of the bitter almond will be a lesson that is likely to lead to a keener demand for apricot kernels in the future, and consequently to the continuance of good prices.

The apricot kernels are shipped mostly to Holland and Germany. No doubt we buy back some of the products, but we may learn after a while to make them right here on the spot.

In Ventura county growers received from 10 cents to 12 cents per pound, with an average of about 10½ cents. In Alameda county the price ranged from 10 cents to 10½ cents.

Since I am just now in receipt of two letters from the Exchange, one from the manager, in which he says that the apricots are pretty nearly cleaned up, and the other from the secretary, I prefer to give you his letter, which is an invitation to every dried fruit grower to join the Exchange. Growers can take no better

step than to join and strengthen the association. As I have already said, our association will no doubt reorganize for the purpose of affiliating with the Exchange, and we shall welcome those who wish to become members of the Exchange. Here is the letter:

Sacramento, March 7, 1914.
Dr. J. G. Berneicke,
Santa Ana, Cal.
Dear Sir:—We are now taking up the work of increasing the membership of the local organizations, and by this letter are inviting every cured fruit grower in the state to join in our efforts to secure more uniformity in the methods of selling cured fruits and securing greater demand and better prices for these products. You are financially interested in the improvements which our Exchange is bringing about, and you are respectfully requested to give consideration to this matter.

The California Cured Fruit Exchange is the selling agency for twenty-two incorporated organizations composed of 982 growers at this time, and additional associations are being formed every month. Although the Exchange has been in business only twelve months, it has sold over \$500,000 worth of prunes, raisins, dried peaches, figs, apples, apricots and pears. Our old members are going into the season of 1914 without loss by withdrawals and are well satisfied with the net prices received for the past year. These prices are uniformly higher than could have been secured otherwise. In addition to this the growers have received large gains in weights by packing their own fruit, gains that have heretofore gone to the commercial packers. Altogether it has been a good season for the members of our associations and next year's business is assuming very heavy proportions.

If you are interested in getting better returns; if you would be relieved of the burden of selling your crops in the old way; if you would profit by the gain in weight that rightfully is yours; and if you believe in co-operative methods of handling fruits, answer this letter and our secretary will call upon you soon to discuss with you plans and progress of our organization. Please reply or call at our office and full details will be given.

Respectfully yours,
CALIFORNIA CURED FRUIT EXCHANGE,
J. W. Jeffrey, Secretary.

WOMEN'S FADS AND FANCIES

By Margaret Mason

NEW YORK, March 13.—To be fashionable you must be ruffled up from top to toe. We have been straight-lined and slimsy and sleek so long that once the break was made there has been a mad revolt from the straight and narrow. The consequence is an amazing eruption of ruffles on all the spring frocks and hats.

While most of the ruffling on the gowns catches you on the hip following the approved hippy outline of the tunic, puff and pannier, others begin at the knee and take a crooked and bias path to the waist line. Some of the ruffles have even dared to break into that narrow zone about the ankles and on some of the newest taffeta models they ripple three deep about the feet, so long bounded only by the straight and narrow, plain and uncompromising hem.

For the skirt ruffles, net or taffeta, from which the entire gown is built, are the approved materials. For the

PILES

Removable. All kinds of piles, hemorrhoids, internal and external. The CAUSE is always internal. Dr. Leonard's HEM-ROID TABLETS produce amazing results by attacking the internal cause. The piles are dried up and permanently cured. 21 days' treatment, \$1.00. DR. LEONARD CO., Buffalo, N. Y. (free book) Sold by Bowley Drug Co. and all druggists.

Spring Millinery Display

SATURDAY
March 14

You are cordially invited to inspect our display of the very latest styles that reflect the newest and best of this season's modes.

Miss O'Donnell

115 West Fourth St.

tainly present a fashionable but scarcely a calm and unruffled appearance.

Hardly in the hat class but still something that goes to your head is the new tulle halo made up for all fashionable sinners in imitation of saintlier models. It is fashioned of a tulle frill that stands out from the face in most approved halo fashion.

Since we have taken to halos it is no wonder that the waistlines are again striving to lead the higher life. For evening gowns and in fact for all dressy occasions, the high waist is again de rigueur, although the normal line still clings triumphant about your middle for middle day wear.

After the surfeit of wide girdles and sashes galore it is a promised relief from monotony that many Parisian dressmakers and designers are now favoring narrow inch-and-a-half girdles or rather belts and in many instances no girdle at all, but simply a line of joining between the blouse and skirt. Of course the girdle will not submit to annihilation without a struggle and so it is putting forth new lures and fascinations to hold its devotees.

Not the least of these charmers is a girdle composed of two and three shades or contrasting colors. One in a sweet pea shade of pink is adorable. In three shades of green, yellow, or American Beauty tints these girdles are indeed lovely and it is well to have at least one about you even if the rest of your wardrobe be girdleless.

It is sad to relate, but waistlines on sport and top coats absolutely refuse to be elevated like the rest of their ilk. They have sunk to the lowest depths. Even the belts that hang around them have fallen into their low ways and slump loosely and discouragingly in the rear.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburger Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly!

Layne & Bowler Pumps

and Well Screens, solve the problems of cheap water for irrigation. WE INSTALL PUMPING PLANTS COMPLETE.
